**ES-2000  
Two-channel SoundMates**

At last the perfect answer for the music lover who wants the advantages of precision and versatility only available in component stereo. But at the same time, wants the comfort and security of knowing that he will have a stereo system that was designed collectively and specifically to play together as an audio team. Each component mated carefully and thoughtfully. Each component engineered to reflect and enhance the beauty and quality of your favorite music. From stylus to speaker grill, this system is a product of Pioneer's tradition of precision craftsmanship coupled with engineering expertise. Thus, Pioneer's ES-2000 Two-channel SoundMates becomes united through this concept into one perfectly balanced stereo system. A concept that you can use to your musical advantage very easily. Just "Think System Stereo!"
