

Kevlar*

CANADIAN
TIRE

Stronger than steel, much softer ride!

Kevlar BELTED SAFETY 99 **RADIAL**

Exciting all-new Canadian Tire 'first'...
A Radial with Kevlar for the best performance yet!

A milestone in tire construction! Built with 2 belts of miraculous Kevlar—by weight 5 times stronger than steel—to provide amazing mileage, softer ride and fewer running-gear repairs... plus 2 body plies of Du Pont 66 Nylon to ensure extra safety. Topped off with a high-traction, quiet-running, sure-footed tread!

For a little less money and the same mileage rating, consider Super-Lastic Supreme Radial with 2 Steel Belts, 2 Polyester plies, and 2 Nylon cap plies on 14 & 15" sizes.

Kevlar BELTED 2+2+2 SAFETY 99 **MULTI-CORD**

2+2+2 Multi-Cord is the best bias-belted tire made,
and our own Safety 99 lives up to that claim!

Multi-Cord 2+2+2, with its 6 plies under the tread, has everything going for it! Two belts of that incredible Kevlar, the Du Pont Aramid fibre for strength and mileage; 2 body plies of Du Pont 66 Nylon for extra safety; 2 Polyester plies for no-thump, smooth-riding comfort. Add it all up and you've got a real winner. No wonder we call it the best bias-belted tire made. Multi-Cord 2+2+2, Kevlar belts on a soft-riding Nylon casing, retains most of the features of 2+2+2 at a lower price—33,000-mile treadwear-rated.

No charge for Passenger Tire Installation on most standard rims when you buy our Dill or Schrader Valve at our regular catalogue price of \$1.00. We must install our new tire and valve together. *A tire isn't new unless the valve is too! Static Balance, tire and wheel, \$1.00.

THEY'RE
TRIMMABLE!
