#### Pink tea party

Tuesday, March 22 was a red letter day for Nellie J. Winterstein when the Social Committee of the Women's Fellowship Group of Bloomington Gospel Church helped her celebrate her 90th birthday.

The group, having heard that Mrs. Winterstein would be passing her 90th milestone, planned how they could help her make the bridge and when the day came 35 ladies and gentlemen came in, in spite of the snowstorm, to offer their best wishes and congratulations.

As well as the oral good wishes Mrs. Winterstein received literally dozens of cards.

It was in March, some 70 years ago that the Ladies Group was organized to assist in the church's work and Mrs. Winterstein, then Josie Patterson, was their first secretary. Mrs. Winterstein's father, Dr. Nelson Patterson, was Stouffville's first veterinarian.

A very cordial and pleasant afternoon was spent with the honoured lady and her husband, Joseph D. Winterstein. A very enjoyable lunch was available, including a beautiful two layer cake baked and decorated by the leader of the social group. Other members contributed delicious cookies.

The lunch was served by the ladies in charge, who looked charming in their long gowns.

Pastor C.W. Sorley and his wife complimented the party and added the special quality to the warm fellowship already in evidence by their congenial spirit and good humour which all enjoyed.

A very memorable occasion and delightful afternoon which was closed by Rev. Sorley who thanked our heavenly father for His blessings bestowed on everyone.

Mrs. Winterstein's birthday celebration was extended last week when on Wednesday her son Eugene and wife Phyllis and son Marck came to visit in honour of her birthday.

Her son and daughter-in-law brought along a delicious dinner prepared by Phyllis. They stayed over to visit until Friday when they

returned to their home in St. Catharines.

#### Returns home

It consisted of garden hints by Mrs. Housser, a reading by Jean Hsieh, Dr. Eugene Janiss, the architect who designed the new Stouffville library, showed interesting pictures of the building and explained how trees, shrubs and plantings can greatly enhance them.
