100% COMMISSION PAY PLAN AND JOB SECURITY

Security and self-confidence is one and the same thing. We must front the facts, find our strength and weaknesses; apply our mental vigor, and choose to do that which is according to our nature and capacity.

Out of self-government arises self-confidence. The world is likely to believe in a man who believes in himself. No one can be just in business or a profession who wants advice before he does anything important. Self-reliance is the end expression of many qualities.

The 100 percent Pay Plan encourages self-determination, self-confidence and self-reliance, which gives job security. If you are not willing to face facts, bear responsibility, discipline yourself or have faith in your judgment, the 100 percent COMMISSION PAY PLAN is not for you.

See you next week on how "Good Wages" fits our plan.
