Our most popular bias-ply tire is the Safety 99 All Service. And no wonder — it's super value. It's built with 4-ply DuPont-66 nylon — the very same that goes into racing car, truck, aircraft and even giant earth-moving tires! Nylon permits a sidewall construction that dissipates destructive heat at highway speeds. A dependable performer. Rated at 18,000 miles except size 5.20/10 which is 10,000 mile rated.
5-year road-hazard insured

Free installation of our new passenger tires on most standard rims when you buy our Dill or Schrader valves at our catalogue price of \$1.00. We must install our new valve and tire together. Ask your dealer about the advantages of balancing wheels and new tires.

Kevlar

This top-rated radial has tough nylon and mighty Kevlar fibre

Kevlar belted radial

LR78/15	75.50	67.92

Two plies of super DuPont-66 nylon under two belts of DuPont's mighty Kevlar fibre make this radial one of the best available. Anywhere. At any price. Pound for pound, Kevlar is five times stronger than steel. It won't break as glass fibre may under severe compression. This softer-riding radial gets our top treadwear rating of 40,000 miles.

5-year road-hazard insured

Five-year road-hazard insurance. Coverage applies to all of our passenger tires. It insures your tires against damage caused by road conditions which renders them unsafe.

Treadwear mileage ratings can be easily exceeded in normal use.
