E78/14 WHITEWALL

3445 each

Two or more after discount for cash* **3083** each

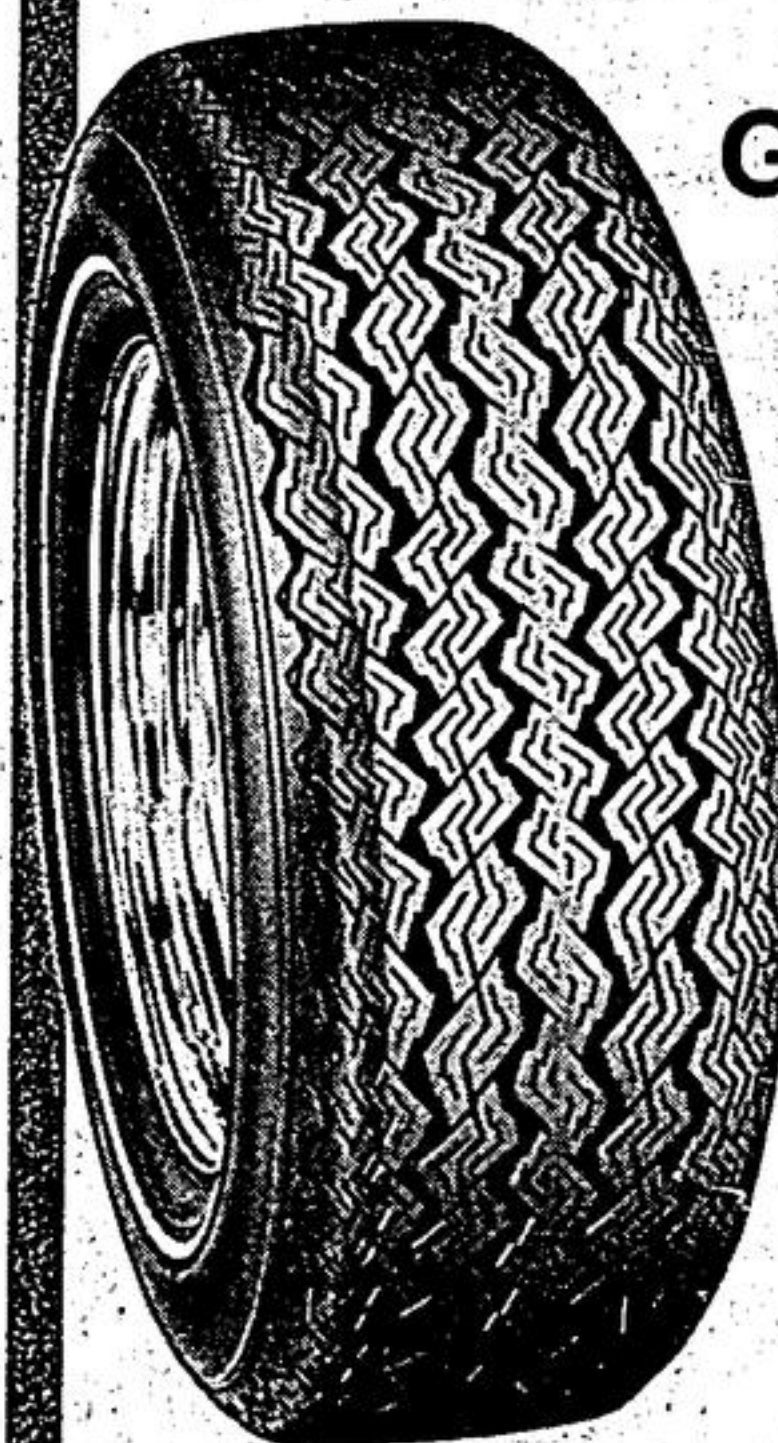

4+2 Belt-O-Glass

Our strongest glass belted tire. In fact, we don't know of any other Canadian retailer who offers this same strong construction! Two glass belts atop no less than four plies of super tough Du Pont-66 nylon cord. That means BIG safety plus smooth ride and long life. A tire built tough and proven in punishing Nevada Desert tests. Read about them in your store. For compatibility, compact sizes have 2 plies instead of 4 but performance rating is a high 30,000 miles on all sizes.

5-year hazard insured

70-series

ER70/14 WHITEWALL

4975 each

After discount for cash* **4346** each

The Glide-Air 70 has to be your choice for radial tire performance at low cost.

The 70-series is our wide-track glass belted radial and construction is the same as the 78-series on the right.

Radials are close to the utopian tire. A very rigid treadface ensures superior handling and outstanding mileage while flexible sidewalls permit excellent driver control.

Our 70-series radial is performance rated at 35,000 miles.

5-year hazard insured

Glide-Air Radials

Glass belted radials are now standard equipment on many new cars. And will soon be on many more.

Glide-Air 70 radial

Whitewall sizes	One tire price	2 or more each after discount*

165R-14	41.85	39.76
165R-15	43.95	41.75

5% DISCOUNT for cash payment on tires in lieu of bonus coupons

Free installation of our new passenger tires on most standard rims when you buy Schrader or Dill valve at our regular price of \$1.00. We must install our new valve and tire together.

Check full benefit terms at your local Canadian Tire Store.

5-year road hazard insurance covers above tires. It insures them against damage caused by road conditions which renders them unsafe.

Performance ratings may be attained and exceeded in normal use. Ratings are not guaranteed mileage life; nor, necessarily, limits of tire mileage. Rather, they represent tire life expectancy under comparable conditions.

78-series

ER78/14 WHITEWALL

3830 each

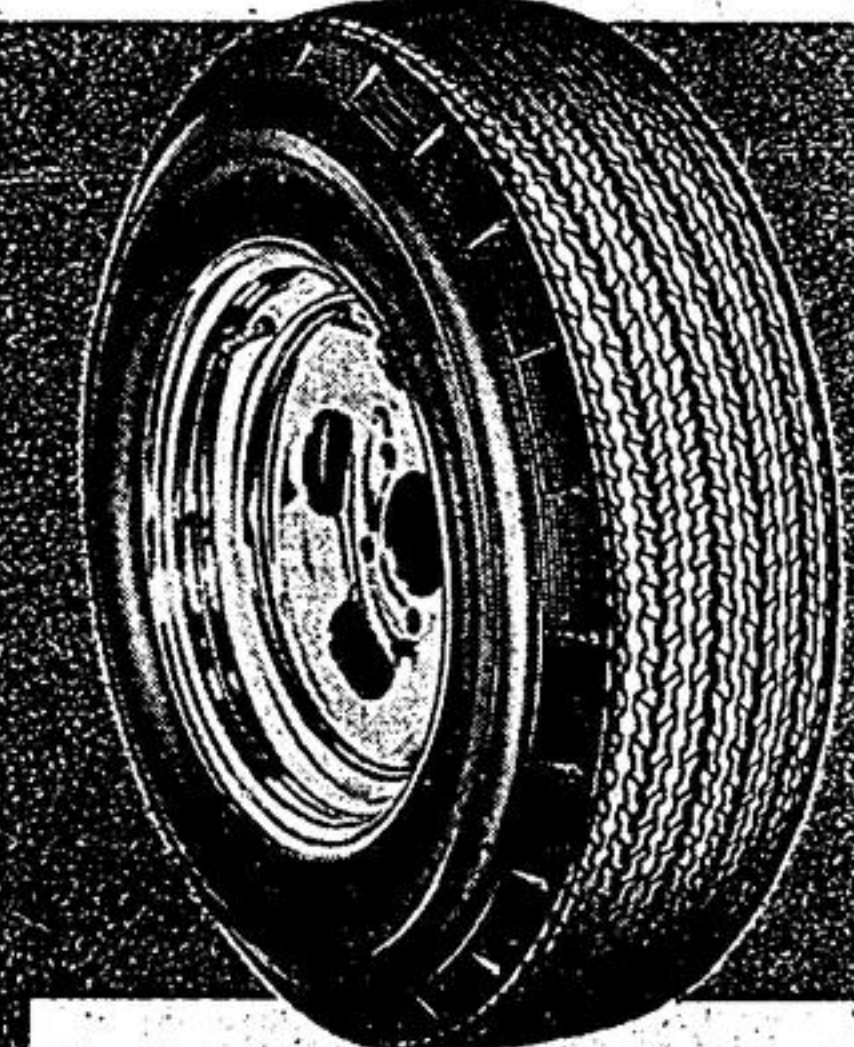

2 or more after discount* **3638** each

Glide-Air 78 has 2 fibre glass belts atop 2 polyester plies for stability and low-speed smoothness. All fabric construction means greater low speed comfort than popular steel belted radials but losing none of the handling characteristics! Performance rated 32,000 miles.

5-year hazard insured

Glide-Air metric radial has a slightly different tread pattern and construction to the 78-series but is 35,000 mile performance rated!

5-year hazard insured

Safety-99 bias ply

Safety-99 All-Service is our best selling bias ply. It's super value. Built with Du Pont-66 nylon — the very same that goes into racing car, truck, aircraft and even giant earthmover tires. Nylon permits a sidewall design that dissipates destructive high speed heat-up. Performance rated at 18,000 miles except size 5.20/10 which is 10,000 mile performance rated.

5-year hazard insured
