Perfect for fisherman, sportsmen, families, resort owners! Here at last is real pleasure boating—no fuss, no worries, nothing to do but have fun! Three rugged lightweights to choose from. Power! Performance! And trouble-free operation!
You're off to a flying start...with your outboard. On your way without a moment's delay, thanks to the float carburetor and loop scavenger engine with built-in fuel pump. Out through shallow water with no fear of motor damage... quick-action, easy-adjusting transom bracket locks in any position; leg telescopes for clearance.
Get where the fun is...fast!
Finger-tip steering... all the way. Safe, sure convenient 360° engine rotation supersedes easy-to-jam reverse gears. Locking lip makes backing simple.
Hurry in a hush! Under water exhaust gives silent speed. Shock mounts between engine and leg for vibration-free operation. Main drive shaft is sealed against corrosion.

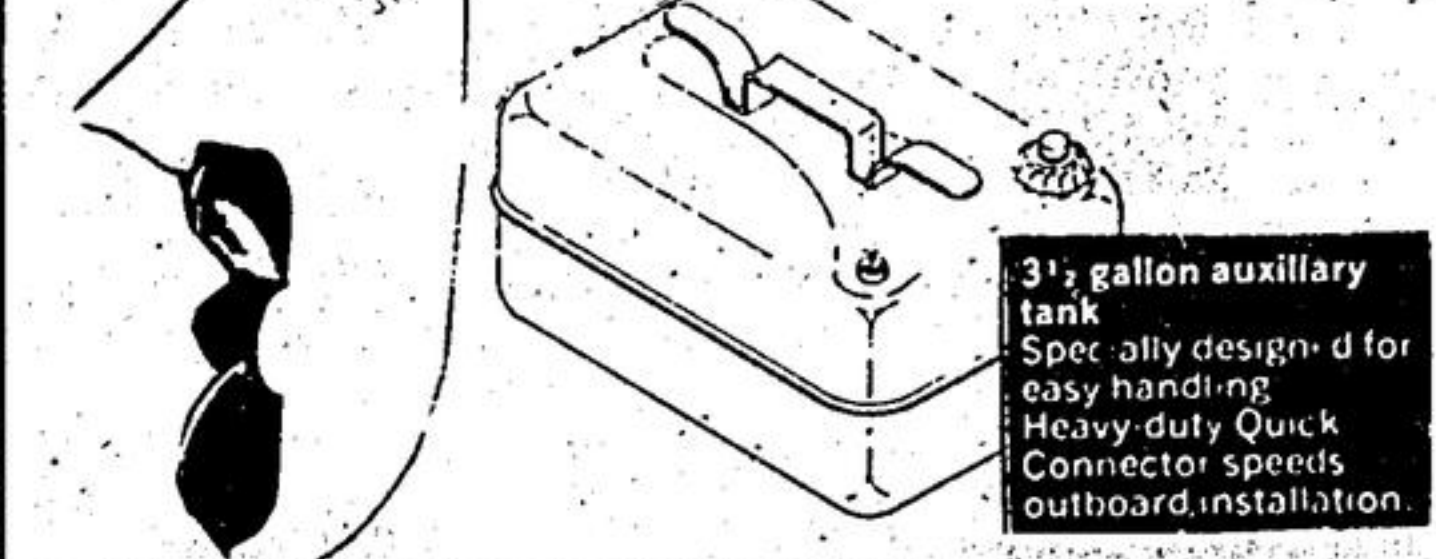

**SPECIAL
\$331.00**

MODEL 550
**5.5 H.P.
LIST PRICE
\$368.50**

Solid state ignition now available on 7.5 h.p. outboard for even easier starting, improved idling, smoother power. Eliminates ignition maintenance... starts with fouled plugs, flooded engine. Automatic electronic spark advance never needs adjusting. Humidity, dirt, dust can't affect system, permanently sealed in epoxy. Instant starting...anywhere.

MODELS FROM 4 H.P. to 7 1/2 H.P.

Minimum maintenance! Extremely low water intake position of the unique water pump behind prop housing ensures continuous positive cooling. Radial and axial ball bearing mounted transmission for reliability. Air cooling eliminates freeze-ups, simplifies winter care. Pressure die-cast precision propellers, individually pitched and tested for trouble-free operation. Save maintenance time and money. Screw driver and pliers you can forget, nail or pocket-knife are sufficient for sheer-pin change or water pump cleaning.

Now...if you own a lightweight chainsaw of the popular brands you can convert it to one of the most efficient MONOFILAMENT TRIMMERS to be found anywhere. In just minutes...you can take the bar and chain off your saw...replace it with the HOFFCO TRIMMETTE chain saw attachment and you're ready to go...trim, cut, mow, edge, sweep... even does decorative scalping around trees.
