BARNABY JONES

THURSDAY

Stars On Ice

It's a television program with a very special difference. Each week host Alex Trebek welcomes internationally famous skating superstars and celebrity entertainers for a glamorous and glittering half hour of pure magic.

The Patsy Gallant Show

Two time Juno award winner Patsy Gallant stars in her own weekly music series... creating an electrifying performance that justifies her international smash hit records "From New York To L.A." and "Sugar Daddy". It's a dynamic, uptempo show featuring the biggest names in show business.

Project UFO

13,000 cases of extraterrestrial mysteries generates the factual base for the highly successful series starring Caskey Swaim and Edward Winter as Air Force staff sergeants assigned to investigate each and every clue in the strange reports of PROJECT U.F.O.

Live It Up

LIVE IT UP debuts as a television guide to "the good life". Each week hosts Jack McGraw, Mary Lou Finlay and Alan Edmonds show viewers how to live and cope with today's complex society by making lifestyle choices for the home, employment and leisure time.

Soap

9:30 p.m.

SOAP is the continuing saga of the Tates and the Campbells, two very unusual families whose zany members offer a comic half hour of merriment as the relationships, problems and secrets develop and twist into the most outrageous situations.

Barnaby Jones

Buddy Ebsen portrays BARNABY JONES, a wiry detective who out-thinks and out-wits his adversaries. His investigations are done with humour and style as he is assisted by Lee Meriweather and Mark Shera.
