Delay pit project urges Goodwood man

With respect to an application for the rezoning of 400 acres of agricultural land in Uxbridge Township to permit the operation of a gravel pit on the site, Robert Mercer of R.R. 1, Goodwood has written the following letter to the Minister of Agriculture, Hon. William G. Newnam. It reads as follows:

As a constituent in your Riding, I am, along with a growing number of other residents, deeply concerned with the manner in which a local municipal council is ramming through a vast agricultural land rezoning change in order to accommodate the wishes of an aggregate producer before the deadline of municipal elections.

The conduct of the council is in question as is your own policy of preserving agricultural land in Ontario. As Minister of Agriculture

and Food, we bring this matter to your attention as it is in the heart of your Riding.

The rezoning change I question, concerns 400 acres of prime land with an agricultural classification that is to be changed to an aggregate extraction designation for John B. Regan Co. Ltd.

As citizens in your Provincial Riding, we solicit your immediate assistance in persuading the Minister in charge of Inter - Governmental Affairs, to call a halt to the actions of Uxbridge Township Council until a full study of the actions of Council can be accommodated as well as the views of the concerned citizens listened to without prejudice.

We strongly request your immediate action as this disastrous agricultural, environmental and social injustice will be consummated upon an unwilling electorate if not halted by Oct. 11, 1978.

Slam swing site

BALLANTRAE — A petition, calling for the re-location of a swing set, recently erected in the Felray Subdivision Park at Ballantrae, has been circulated among residents on Iroquois Drive and Felcher Boulevard.

A number have indicated opposition to the project at that particular site.

The Community

Centre Board installed the swings without prior consultation with local home-owners. Cliff Glover, 61 Iroquois Drive, told The Tribune.

Mr. Glover and a neighbor, John Tardella stressed the fact they are not opposed to the swings being placed in the park but rather where they have been placed — too close to their backyards. In addition to a noise

problem, the area is constantly littered with garbage, they claim. Mr. Glover said the site contains close to seven acres; plenty of open space far removed from local homes. He said Iroquois Drive owners paid a premium price for their properties because of the park and should therefore benefit from it. A present, the opposite is true, he concluded.
