Agree with mayor

Dear Jim:-

The following personal comments by the writer, in response to the red letter feature article which appeared in last week's Tribune. I feel under the circumstances, this requires a reply and would appreciate very much if what I have to say as noted below will receive equal coverage in this week's edition of your newspaper.

It is very interesting and enlightening to note Mayor Gordon Ratcliff's comments in last week's Tribune, with regards to the cost borne by our Town of Whitchurch - Stouffville (our tax money), for Ontario Municipal Board hearings of \$1000 per day in the sitting of such hearings.

As a taxpayer, I share his thoughts, especially relating to speculative proposed plans of subdivision of scenic land and the right of concerned home owners, residing in the immediate area of such proposals, to object to various aspects of such plans. Perhaps Mayor Ratcliff, who is retiring from office, is viewing this in retrospect,

drawing from his wealth of experience over past years.

For home owners of our Town, (urban and rural), who are not aware of what goes on, that brings about such O.M.B. hearings, perhaps this reply will enlighten them and make them aware of the reasons why such hearings are necessary to act as a control; that speculators with plans of subdivision will think twice before proceeding to steam-roller their quest for purely a monetary gain, over justified objections of affected established residents.

An O.M.B. hearing of two and one-half days concluded, Thursday of last week, at Latham Hall, to determine whether or not our local Council has made wise and objective decisions, supporting a proposed plan of subdivision on the Vivian Road between Highway 48 and the 9th Concession, (in the old Vivian Forest). To accommodate this speculation, Council has seen fit to amend the Official Plan of the Town and to also pass a Special By-Law for spot zoning in a most sensitive area of

the Oak Ridges Moraine — why?

As a resident directly opposite this proposal, I have nothing to gain and everything to lose, in my own considerable investment in my home and chosen rural way of life. Fortunately for myself and family, we have a group of extraordinarily good neighbors on the Vivian Road and the 9th Concession, who are also affected and share my view. We have banded together as a consolidated and determined group, to oppose this plan of subdivision, in its present form. This issue has been in the works and before the Planning Committee and Council for the past five to six years.

To broaden Mr. Ratcliff's vision regarding the cost of such an undertaking, let me say, we as a group have spent endless hours at meetings among ourselves, at Planning Committee and also Council meetings, trying to keep abreast of the moves being made — like a game of chess, they (Speculator and Council) being the Masters, and we (local home owners) being the Novices. If one could add up all our costs, taking the time off our

earning of a living, hiring Mr. Don Kimura, a local lawyer, to put a cost figure in actual dollars, would I am sure, be very expensive indeed. Only as a united group, my neighbors along with myself and family were able to oppose the efforts of this speculative planner and the support they received by our local Planning Committee and Council.

The O.M.B. hearing has been completed and we await their reserved decision with interest. It is hoped that this Board will take into consideration factors which we as a group did not agree with in the proposed plan and that some modifications will result, giving us at least some justifiable concessions to maintain our rural way of life.

To conclude, I support Mr. Ratcliff's view, that such plans of subdivision costs incurred by local residents who oppose, be the responsibility of the speculator, who is only in it for a buck.

Yours truly,
Finley J.M. Macdonald,
R.R. 3,
Vivian Road,
Stouffville.
