## Becky WEDLEY FOR MAYOR

Dear Residents:

At least four out of six of your new Town Council will be "inexperienced" because of seats vacated.

Our Town will need STEADY, EXPERIENCED LEADERSHIP to lead six Councillors through debates and discussions to end up with legislation that is not only fair and just -- but also good for the community at large!

A good leader must learn to be a servant first -- I have served the people of Whitchurch-Stouffville well in the past six years. I have the time, the experience, and the knowledge to provide you with a FULL TIME MAYOR, who not only cares about you and your needs, but is able to provide STRONG and CAPABLE LEADERSHIP during the next two years!

Support me with your vote for MAYOR on Nov. 10. You'll be Glad you did!

Sincerely,

*Becky Wedley*

## The Thing-pass it on

Dear Editor:

Yesterday I ventured across the York-Ontario county line and drove westward towards that haven of churches,

fundamentalism, and nineteenth century thinking known as Lishman exhibit at the public library.

Outside the library on a pole I saw the most graceful mobile, pointing its long neck towards the south and reminding me of one of our beloved

Canada Geese in autumn migration, while it nodded its head rhythmically as if to say - "Yes, yes, yes; this is Stouffville, the community without any imagination, that moves steadily backwards while everyone else moves forwards! But fly on my fellow birds and we'll soon leave it far behind us!"

While I was watching, the thing bobbed its way around and pointed its long neck to the north and I then imagined the geese returning in the spring and bringing with them all of the new life and resurrection that comes with their northern migration. This thought made me feel hopeful and glad and more imaginative and ...

As I watched the thing moving continually I was certain it was a new concept in weathervanes, and then my imagination began to dwell on all manner of winds and trees and grass and your town during my fifty waves and clouds moving with them and ...

But space does not allow me to dwell on all

the glorious and free thoughts the mobile aroused within me, and I cannot understand how there has been some artistic creation, but I suppose neanderthal minds still exist almost everywhere.

If Stouffville does not want this thing I am certain it would be welcomed by the more progressive people in Pickering, who would plant it outside of the Town Hall on the Kingston Road where the thousands of passersby could view its beauty and it could nod its head as if to say - "Yes, yes, yes, my fellow birds, this is where we truly belong, in Pickering, where almost everybody is progressive, imaginative and eagerly moving towards the twenty-first century!"

Wake up Stouffville! This mobile is the most alive thing I've seen in your town during my fifty years of now and then visitations!
