PC-2010 **COLOR PILOT**

20" Color TV features ColorPilot electronic color control

Advanced technology and long-standing experience come together to bring you this truly fine color TV that has all the features for the beautiful color picture you expect from a Panasonic TV. Whether you choose to have it in your den, rec room or in your bedroom, the PC-2010 will provide you with years of viewing enjoyment. ColorPilot electronic color control "reads" and adjusts the color picture to factory pre-set standards for consistent balance of brightness and contrast. "In-Line" picture tube for sharp, clear pictures that will make you feel

like you're there. 100% solid state IC chassis for dependability and long life. "Quick-On" picture tube brings you picture and sound in seconds while eliminating unnecessary power consumption. Panalock Automatic Fine Tuning instantly locks in the best signal. Whiteness enhancer for contrast control. Easy-to-read lighted channel indicator. Detachable VHF dipole and UHF loop antenna. CATV/Master antenna connector. Rich looking walnut grain cabinet finish.

Technics

The science of sound

SL-B2

Here is a sturdy, belt-driven turntable, with semi-automatic operation providing tonearm return and turntable shut-off. The drive system includes a Frequency Generator servo system to maintain platter speed despite AC line fluctuations. Wow and flutter: 0.045% WRMS. Rumble: -70dB DIN B. Electronic speed change, pitch control with illuminated stroboscope, and front panel controls make this reasonably-priced turntable simple to operate.

SA-202

30 watts per channel minimum continuous RMS into 8 ohms, both channels driven, from 30-20,000 Hz, with no more than 0.04% total harmonic distortion. S/N ratio 75 dB (re 5 mV 1 w) 1HF '78. MOS FET front end. Flat group delay 1F filters. Loudness and Tape Monitor switches. Main /remote speaker selector. FM muting. 2-color LED signal strength indicators.

- TURN TABLE
- FM/AM STEREO RECEIVER
- 3 WAY SPEAKER SYSTEM

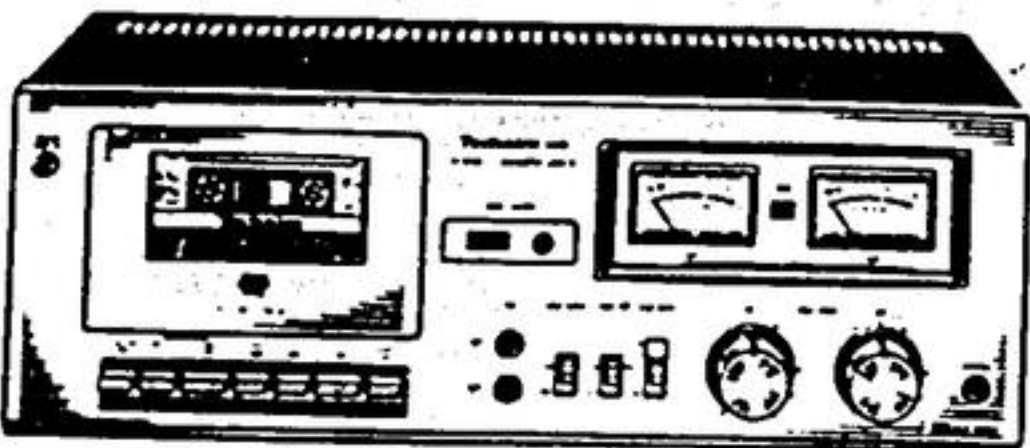

PKG. \$639⁹⁵ SUGG. LIST. 829⁹⁵

SB-L50

A 3-way speaker system which offers linear phase design and performance at a reasonable price. 9" bass driver, 4" midrange 2 1/2" wide dispersion cone tweeter. Phase corrected crossover network at 4k Hz and 9k Hz. Can handle 75 watts music, 50 watts DIN. The enclosure is tuned and vented, and efficiency is correspondingly high: 94 dB/watt and 1 meter.

• OPTIONAL EXTRA •

SUGG LIST \$239.95

\$189⁹⁵

RS-M5 Metal Tape Compatible Cassette Deck.
The classic listening test applied to cassette decks involves putting the cassette through its recording playback paces. Listen for variations between the recorded material and the original program material. A good cassette deck should be able to faithfully capture the original material. And you should also be able to modify it to your own liking. The Technics RS-M5 provides the features and specifications to make the most of cassette recording and playback. Frequency response 20-17,000 Hz (metal tape). Wow and flutter 9.07% WRMS. Electronically controlled DC motor. Dolby noise reduction. Full auto-stop, Mic/line input selector.
