Special Prices on Famous Tremclad Rust Paint

This is the paint that all of Canada is using to seal metal against moisture. It inhibits rust on clean or rusted metal. It provides a rich lustrous finish that not only resists moisture but also fading. It dries tack-free in 2 or 3 hours but wait overnight before re-coating.

All popular colours are available in gallons, quarts, 1/2 pts and aerosol cans. No laborious, scraping or sanding is required as it goes on right over rust. Most applications do not need primers, but for first coat on aluminum or galvanized iron it is wise to use the new Tremco Surface Conditioner. It can be brushed, rolled or sprayed and thinned if necessary with turpentine.

Each year we all must have at least one or two uses for Tremclad. Here are just a few uses: • Playground Equipment • Bikes and Toys • Lawn Furniture • Garden Tools • Ornamental Iron • Storage-Sheds • Barbeques • Fuel storage tanks • Farm machinery • Metal roofs •

2 Rolls Royale Paper Towels

Thick, 2-ply cleaner-uppers. 4411-201-18

1 19

Pkg. of 2 Rolls
