Explanation

Dear Jim:
Now that the busy 1981 softball season is over, I wish to express my thanks to the following executive members — Al Piette, Bob Belisle, Jim Wagg and Joe Barber.

My other reason for writing is to reply to a letter published in The Tribune earlier this year regarding All-Star Softball in Stouffville. It referred specifically to the Junior Men's Softball Team. I wish to explain the Association's position.

Early in November, 1980, we called a general meeting through an advertisement in the paper. We stated the reason, the location, the time and the date. The purpose was to discuss the future of All-Star Softball in Stouffville and elect an executive. It was very disappointing that so few people attended; however, a few dedicated persons agreed to carry on.

In order to have All-Star Softball Teams, you must be able to play in a league. In order to have teams, you must be assured of players. We therefore had to conduct our registration

early in the year. All leagues are formed by the middle of March.

We had enough players register for the following categories and had the following teams — Novice Girls, Squirt Boys, Midget Girls, Bantam Boys and Intermediate Ladies.

This is only a small portion of what must be done, but I feel at this time, I must reply to the letter regarding the Junior Men.

The executive did the following before the end of February, 1981:

(1). Contacted the 1980 sponsors who agreed to support the team again in 1981. (2). Arranged through the Recreation Committee for 50 per cent operating costs. (3). Contacted Frank Hendy who agreed to coach the team. (4). Had the team entered in the Oshawa and District League.

Several of the players were contacted in advance. However, most later decided they wouldn't be playing for Stouffville. Some were retiring while others were trying out for other clubs.

I was very disappointed with the end result. This team was

once a real drawing card for softball in town. Because of this, many fans were disappointed, too.

I feel the executive has been unfairly criticized. The operation was in full swing; all the players had to do was indicate their support.

Maybe I'm being unfair to these boys because, after all, they did win three championships in a row. I guess as long as someone does the work, no one notices. But as soon as a problem arises, the critics appear.

I intend this letter, not for the players but for the back-seat critics who holler and yell from a distance. However, when help is required in organizing, coaching, umpiring, etc., they disappear.

Perhaps when we once again hold our meeting in November, which will be advertised in the paper, they will prove me wrong by showing up and helping out. I hope so.

I thank you for allowing me this space in order that I might voice my thoughts. Sincerely, Cliff Dunkeld, Executive Member.
