Productive year

By Nora Storer
Pickering Town Council
1981 has been a most productive year for the Town of Pickering and for me.

The town is growing faster than most municipalities in southern Ontario. In the Town Centre Area, nine apartment buildings are under construction. The T. Eaton Company has announced that they will be opening a 120,000 square foot 'full line' department store in the Spring of 1983. The store will be part of the Sheridan Mall.

The recreation complex received \$4 million dollars from the Provincial Ministry of Culture and Recreation. Construction will begin in the Spring. The facilities as planned will really be a terrific boom to Pickering residents.

The recreation master plan is awaiting approval from the Ministry of Culture and Recreation of the draft terms of reference. These will then be submitted to Council for consideration.

In the fall, we saw a major change in our transportation system. We outgrew the Dial-a-Bus system and were losing riders and so switched to the fixed route theme. Many more people are expected to use the system now that they can count on being certain places at specific times. We are now one step closer to an interconnection with the TTC, something I believe would be a great service to Pickering residents.

The Ajax Pickering Handi-Trains, now has 85 handicapped individuals registered to use the service. A second van is being fitted for service. We travel to Scarborough College, Scarborough Hospital, Oshawa General Hospital and Durham College, as well as in and around Ajax and Pickering.

Resolutions at both Pickering Council and Durham Regional Council rejected the idea of building an airport in Pickering. Both Councils stated their deep concerns about the degeneration of the area and the need for long leases and revitalization. A report from Regional Chairman, Gary Herrema, to Jean-Luc Pepin, the Federal Minister of Transport, has suggested that many properties should be released from expropriation and sold to private individuals. The Region of

Interest rates are having a devastating effect on our farm economy. As deputy mayor, I was part of a panel with MP Ed Broadbent, MP Scott Fennell, MPP George Ashe, Ajax Mayor Bill McLean and others discussing the effects of high rates on our economy. It is absolutely essential to maintain strong businesses and farms. Council supported this position in a resolution sent to the Finance Minister.

Council has deferred making a decision on two items relevant to the next election. The proposals to change the ward boundaries and to elect Regional Councillors at large rather than by ward, have been put off until January 11, 1982 to allow for response from individuals and associations. If you wish to see the maps for boundary changes, call the town clerk, Bruce Taylor. Let us know your views. I hope you and yours had a good Christmas and I wish you all the best in 1982.

Collision

STOUFFVILLE — A two-car collision, Dec. 29 on Stouffville Rd., sent four people to hospital, with minor injuries, and caused an estimated \$8,000 damage to the two vehicles.

York Regional Police said the accident occurred when a west-bound vehicle, driven by Robert Holden, 27, of Ringwood, allegedly made a left turn into a private driveway and was in collision with a car driven by Kenneth Mearns, 55, of Scarborough.
