General Motors' continuing leadership in the automotive revolution is on display at the Auto Show. You're invited to come and meet our all-star cast for 1982, headlining GM's first front-wheel-drive mid-size cars, all-new and all-different sporty cars, and our first North American economy-size pickups.

There will be experts on hand to answer any questions you might have and to explain General Motors' progress in improving space-, weight- and fuel-efficiency. We think you'll agree this is one of the most news-worthy GM Exhibits in years. It's a "must see" for anyone who wants to be up-to-date on what's happening in cars and trucks for today and tomorrow. We hope to meet you there. GM has a talent for being a forerunner—and we think it shows.
