We at Miracle are looking forward to being active participants, not only in servicing, but also in supporting Markham. We take pride in our community and in being a part of it and as good corporate citizens we feel a responsibility towards supporting and participating in the area in which we are located.

We also feel a strong commitment to continuously offer a clean, well serviced and pleasant shopping environment for all of our customers, not only on the first day we open our doors, but throughout the weeks, months and years to come.
