

# Senior skating star

**BALLANTRAE** — At Stouffville High's annual spring band concert, May 11, Cheryl Simpson and Eric

Evans favored the audience with a clarinet duet that was accorded a prolonged ovation; and deservedly so. For

it was the same two musicians that received a \$150 scholarship at the Lions-sponsored Music Festival in

Newmarket last month. Cheryl's our "Girl Next Door." From an early age, when she attended similar programs to hear her brothers play, it was her desire to master the clarinet. In three years, her progress has been so excellent, her parents have agreed to provide private lessons beginning next month.

Cheryl enjoys music, so much so, she also plays in the Whitechurch-Stouffville Concert Band and was one of the students selected to make up an all-star band from York Region that performed at Mary Lake Shrine.

However, music is not the only area where Cheryl shines. She's one of Stouffville's most prominent senior skaters, currently working towards her Gold in both Figure and Free-Style. Jack Belec is her instructor.

A Grade 11 student at SDSS, she chooses Math as her favorite subject. She also enjoys Phys. Ed but admits there's no free time left to cram anything else in.

A member in the congregation of Baker Hill Baptist Church, Cheryl currently heads up the Youth Group there and plays in the church orchestra.

Sixteen-year-old Cheryl Simpson of Ballantrae is one of Stouffville's top senior skaters. She's also an excellent clarinet player in the High School band and the Whitechurch-Stouffville band. Following graduation, she plans to go on to university and major in either physical education or music. — Jim Thomas.

# DON'T LET YOUR WEEKENDS GO UP IN SMOKE!

Propane is a wonderfully convenient fuel for cottagers, campers and backyard barbecuers. It's clean, quick and efficient for cooking, refrigeration and lighting. But, like all flammable materials, propane must be used with care. Did you know, for instance, that:

- Propane barbecues should never be used in an enclosed area.
- Propane cylinders must be stored outdoors and checked for safety every 10 years.
- A propane cylinder should always be moved or stored in an upright position.
- Propane cylinders must be located outside recreational vehicles or in a compartment that is gas-tight to the vehicle interior and ventilated directly to the outdoors.
- It is strongly recommended that propane-

fuelled refrigerators be cleaned and adjusted every year. You'll find these safety facts and more in our free booklet. Mail the coupon today and get your copy. It's a great reference guide, and it will ensure that propane is always a helpmate rather than a hazard to you and your family. The Ontario Government—Working to Help People.
