

Which way is up?

How about that for a performance?

Lorraine French, secretary of the Boots 'n' Saddle club, gave an unforgettable performance in the Ladies Goat Tying event, held at Al's Tack Shop a few weeks ago. The event was co-sponsored by the Ballantrae Lions Club and attracted an enthusiastic number of supporters.

Make it Your Cause

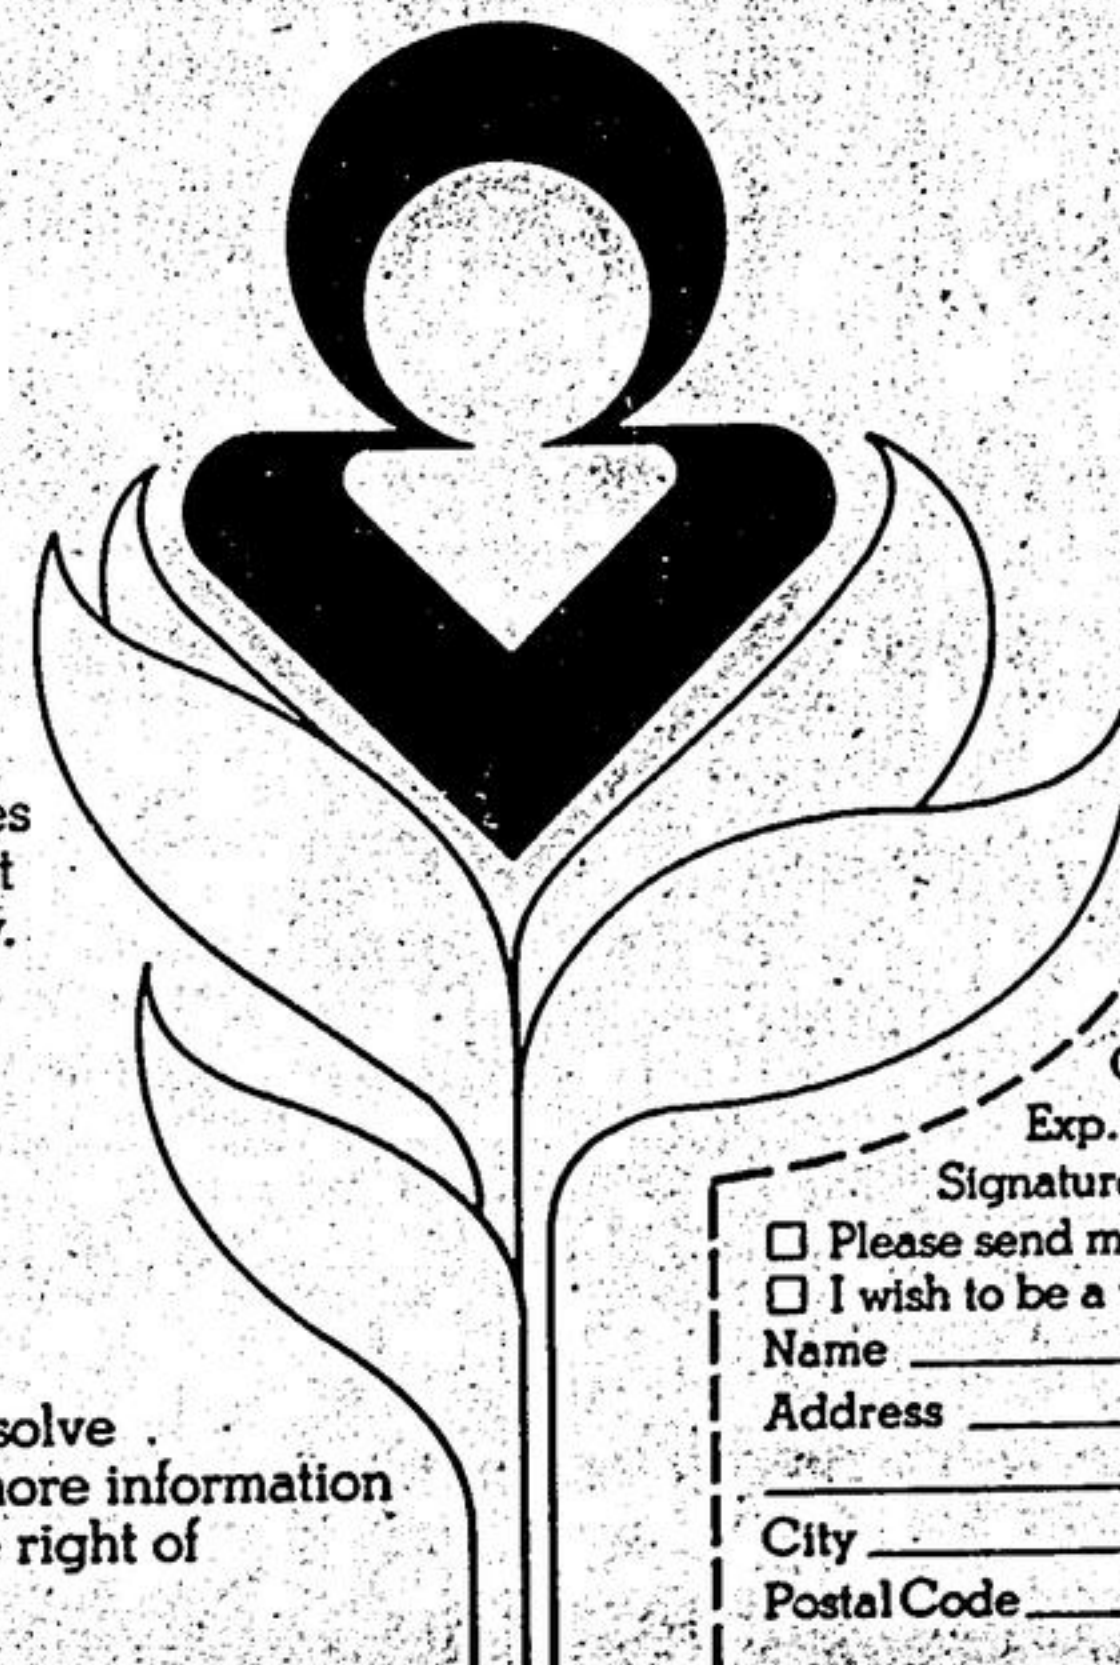

Huntington's Disease - A genetic time bomb..

Huntington's disease is a hereditary brain disorder which passes from generation to generation, causing slow physical and mental deterioration - there is no known cure...yet.

There is no reliable diagnosis, no effective treatment and no known cure, yet Huntington's Disease affects 1 in 1,000 Canadians, and is related to similar diseases of the brain and central nervous system that affect two million people across the country.

The Huntington Society of Canada is dedicated to finding a cure and providing care and counselling to patients and their families of this inherited and fatal disorder that takes such a dreadful physical and emotional toll.

Basic research is already underway but there is a long road ahead. Please help us solve the mystery of Huntington's Disease - for more information or to send a donation see the coupon at the right of this page.
