Directing the big Broadway success, will be a local man, Bernie Leawood, making his directorial debut.

The play revolves around two newlyweds and their attempts to shape their lives and almost-empty apartment, when not dealing with the intermittent visits of relatives, delivery men, odd neighbors and other out-of-breath climbers of the five flights to their door.

Auditions for the play will take place at the Stouffville Library, Sept. 29 at 7:30 p.m.

The general membership meeting will be held Oct. 5 at 7:30 p.m., also at the library.

HOLD YOUR BREATH AND READ THIS.

If your chimney is defective, your house may be feeling just like you do right now. Because heating systems take in oxygen and release carbon dioxide. Just like you do.

But when a furnace can't get enough oxygen, or carbon dioxide can't escape, your house can't "breathe." Carbon monoxide can be created and that is a dangerous situation for you and your family.

A clean and clear chimney is necessary to vent your furnace properly.

Here are some warning signs of chimney deterioration:

- loose mortar and bricks
- white powder or water stains on chimney above roof
- water stains at the chimney's clean-out door.

YOU MAY NEED A CHIMNEY LINER TO PREVENT EROSION OF THE MASONRY.

For your safety, and for your peace of mind, have your heating system and chimney inspected and cleaned annually by a qualified contractor. You and your house will both breathe a sigh of relief.
