It was working part-time at the Stouffville Nursing Home that convinced Bernice this should be her chosen profession. "I loved it there," she said. Bernice is our "Girl Next Door".

Despite the fact she enjoys Stouffville as a place to live, Bernice also loves to travel. She's visited such distant places as England (twice), Mexico and Florida. She hopes to make it back to England soon. She has many relatives there. She also wants to see the Canadian West.

Bernice is active in several sports. She holds a membership at Pleasure Valley, north of Clarendon, and enjoys participating in activities there including horseback riding, roller-skating and cross-country skiing.

Bernice coaches a Grade 9 girls' volleyball team and for five seasons played first and third base for a girls' softball team here.

English is a favorite Grade 12 subject and Neville Hodgson, a favorite teacher.

Bernice and boyfriend Tim Crozier of Markham, share many of the same interests. This past summer, they spent dozens of enjoyable hours at Pleasure Valley.
