Dear Editor:
On behalf of the management and staff at the Deer Park Inn, I wish to express our gratitude to The Tribune and especially to Jim Irving for the fantastic write-up in a recent edition of your newspaper.
Because of your kind article, we had many calls—even a lady wishing to book a wedding in our new addition! We thank you sincerely.

Rejects magic

Dear Editor:
After sitting passively on the sidelines of the issue concerning "a name" for Stouffville that will help to fix it in the minds of visitors and the world at large, I would like to express my opinion also.
It appears that names such as "The Great Magic Festival" and "The Flea Festival" are promoted by those who are not drawing from the rich cultural heritage of this region.
Why not call the festival "Stouffville's Strawberry Celebration"? If it sounds delicious then that's precisely the point— attract people with that which is wholesome, appealing and more in line with a great calendar event anticipated by so many around July 1—Strawberries!
Our region is so rich in this fruit and it would appeal more to the whole family coming out and enjoying a festival around this theme.
Magic leaves a bad taste with me. It's association with sorcery and occult practices is not to be taken lightly. I'm still convinced that a town with such a Bible based foundation as we have must reject the suggestion we be called "Magic Town Canada". We've got to be down to earth about this—and what could be more so than strawberries!
I would be interested to know how many others in the region and town feel as I do, and if you don't like strawberries I'm sorry, but do you see my point concerning "Magic Day" tasting terrible?
Sincerely,
Stojan Ninkovic,
Stouffville
