### Patio Deck Sections

Introducing a new versatile Patio Deck Section. A unique flexible design allows the deck sections to be placed directly on any surface where they will lie flat and avoid rocking. Made from pressure-treated 2"x2" Jack Pine lumber these deck sections are easy to install and offer years of beauty and durability. Ideal for patio decks, garden building floors, apartment balconies, around pools, sauna floors, etc.

### All Purpose 'Multi Bench'

The all purpose multi-bench has been carefully designed to suit your construction and project needs and is pressure treated for outside use. We have left the natural finish, however, you can stain the multi-bench as you desire. The top has been laminated with a water resistant catalyst glue which will not deteriorate when left outside in adverse conditions. The multi-bench can easily be disassembled for storage.

**\$89.95** ea.

## More-for-less fencing Products

Let CADILLAC tend to all your
