

Wrong course?

Dear Sir:
I would advise anyone planning to enrol their child in a summer school enrichment program, to take time and "comparison shop" for a similar course elsewhere at a fairer price.

Since the Government of Ontario has seen fit to halt subsidization of these courses, the cost in most instances has increased by 70 per cent.

I would suggest that students wishing an enrichment course on mini-computers in particular, consider seriously a service to be provided by the Whitchurch-Stouffville Public Library. The Library has indicated a willingness to operate the computer course at the level requested by the people and at a rate that is much lower than that charged by the York Region Board of Education.

Sincerely,
Heather Karlsson.
