ES035 \$149,900

To Our Readers!
We are a home finding service, and we are organized. Our agents see most homes the moment they come on the market. Our computerized MLS listings are ordered by area and price. Century 21 trains us to ask questions, and make requirement lists. We show you only the sort of properties you want, and we don't wish to waste anyone's time. We advertise our homes for sale to meet people like you who are in the market now, or expect to be soon. We work evenings, weekends and most holidays. We only phone you by pre-arrangement, and your name and number will be requested when you call on one of our advertisements. Please let one of our hard working neighbourhood professionals go to work for you. You won't be disappointed, and besides, there is a group of very nice people working here; you will like them! Please give our receptionist our ad code for easy reference and fast service.

Sincerely,
Century 21, Armour Real Estate Inc.
