PONY IS A GREAT CAR AT ANY PRICE. BUT WHAT A PRICE!

**C**ast your eyes over the new Pony. A discerning eye detects the unmistakable hand of its designer, Giugiaro of Milan. That cost Hyundai a pretty penny. But is the Pony high priced?

Now take a seat behind the Pony steering wheel. You're in a fully reclining bucket seat, facing 19 pieces of information on gauges, dials and displays. Electronics like this cost plenty. Or do they?

Close the door, buckle up and turn the key. The Pony has a manual choke to make starting easier in any weather. The 1439cc engine is well-behaved, peppy and responsive. Worth every penny.

Let your gaze roam around the interior, all nicely finished. Switches at your fingertips. Well-placed air vents. Like those higher priced imports.

You can buy a five-door Pony L in your choice of five colours. Standard features are Michelin all-season steel-belted radial tires, rear window defroster and many other goodies. Carpeting covers the floor and roomy cargo space.

Pony's other models are the GL (decked out with even more features such as five-speed manual transmission and clock) and the

top-of-the-line GLS (with all the goodies, including AM/FM cassette player).

OK, OK. How much? Much less than you'd think. Pony is one of the very lowest priced cars in Canada.

Uncover Pony's price in a dealer's showroom, then take one out for a test drive and see how much your hard-earned money can still buy.

TAKE A PONY FOR A RIDE.
