

Barbara Lintner, mother of three, has returned to Stouffville Dist. Secondary, following graduation 24 years ago. Barbara, a registered nurse, is taking typing and account-

ing in Grades 9 and 10. "I'm enjoying it," she says, particularly the "Hi Mom" greeting she receives from daughter Charmaine when they meet in the halls. —Jim Thomas

Mother of three back to school

By Jim Thomas

STOUFFVILLE — The principal and staff of Stouffville Dist. Secondary School welcomed many new students, Sept. 4.

But one is special. She's 41, a mother of three, and an enrollee in Grade 13 but taking subjects in Grades 9 and 10.

Barbara Lintner, Market Street, Stouffville, is studying typing and accounting but may eventually include computers in her curriculum. "That's what everyone seems to be doing these days," she says.

Barbara, a registered nurse, graduated from S.D.S.S. in 1960. She served on the staff of Toronto East General Hospital both prior to and following marriage. One daughter, Anastasia is enrolled at Wilfrid Laurier University, Waterloo; another, Charmaine, is in Grade 12 while a third, Stephanie, attends at Orchard Park.

"It's great, I'm really enjoying it," Barbara says of her renewed quest for knowledge. Classes occur on alternate mornings. This provides sufficient time to complete assignments in the quiet of her own home.

What does Charmaine think of it? she was asked.

"At first, it was 'oh no'," her mother said. She's since accepted it, even acknowledges her mother's presence when they meet in the hall.

"The first day was the worst," Barbara said, "everyone seemed to be staring at me." Although she could pass for someone younger than her years, "the grey hair gives me away," she says with a smile.

The distance (on foot) is a factor also. "I was huffin' and puffin' the first morning," she admitted. She finds it easier now "as long as it's not raining and I don't have to run."

Although her daughters' friends greet her as Mrs. Lintner, the teachers call her Barbara. This gives her a kind of 'at home' feeling. "I haven't been set apart," she says.

As a volunteer at Orchard Park Public School, she knows many of the young people personally. This, plus the fact both Stacey and Charmaine often have their friends over to the house, makes for many familiar faces up and down the halls.

With an B.N. degree, plus a knowledge of typing and accounting, Barbara feels she can better meet the requirements of a staff employee in a doctor's office. Many physicians, she says, want people who can perform this dual role.

Barbara, however, has one necessity that isn't included in the SDSS course of study: It's called 'personality' and she'll pass that test with first class honors.

FALL SALE

Landscape
