

Do your tastes tend to run to the extraordinary, but extraordinary seems to cost a lot? Are you looking for a home that will reflect your individuality... not cramp it and crumple it into something unrecognizable? Are you frustrated with having 'freedom of choice,' when there is nothing to choose from?

Well now there is a choice.

Because now, there is Manhattan.

Manhattan is an exceptionally innovative new community of fine homes... now open for public viewing in beautiful Unionville.

Choose from six impressive home designs, built on generous estate lots.

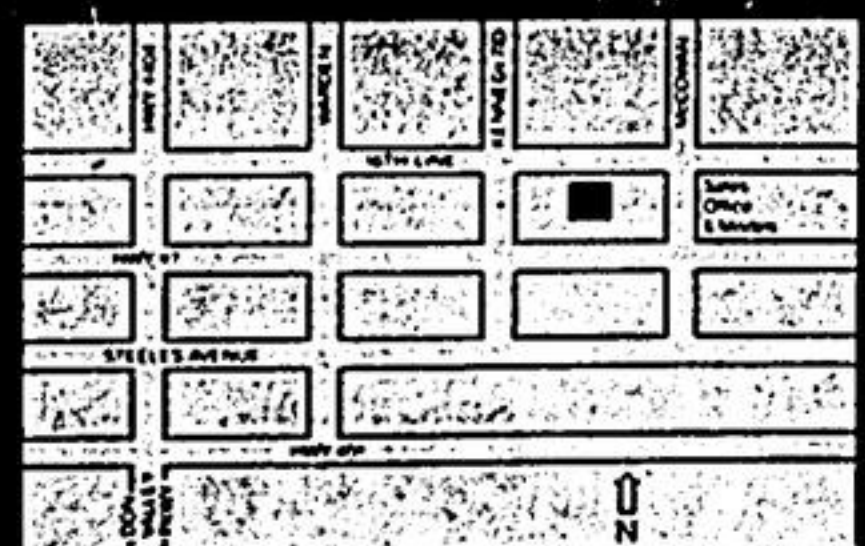

A sample of each design has been constructed and professionally decorated — in order to illustrate the many design interpretations made possible by the classically-structured interiors.

And to help make the choice even easier to make... we've made our terms exceptionally easy to take!
