

Uxbridge's Glen James powered his Heavy Metal modified tractor to second (5,200 lb.) and third (6,000 lb.) place finishes at the weekend Tractor and Truck Pull in Elgin Park. Other hometown pullers fared well in

the tractor events in front of a large and appreciative audience. Uxbridge winners included Leighton Moore (10,000 lb.), Steve denOuden (15,000 lb.) and Grant Mustard (12,500 lb.) —Chris Shanahan

DUO TAKES THIRD

Two Stouffville residents—a father and daughter team—placed third in the 7 UP All-Ontario Bowling twosomes August 17.

Tina Hie, 17, and father Mervin bowled a 981 four game total in Toronto to take third spot. Previous to this feat, the pair had won the Stouffville zone championship and district championship in Aurora.

The Spring Street duo stayed at the Constellation Hotel in Toronto and was treated to a Toronto Blue Jay game the following day.

Area's crop yields high

UXBRIDGE'S A successful 1985 growing season has been highlighted by high yields of quality hay, grain and wheat, says a spokesman at Uxbridge's Ministry of Agriculture and Food office.

"The only question marks are soy beans and corn," said Ivan Bell. But the Durham West agriculture representative is confident these crops will also fare well this year.

"As long as we don't get an early frost, it looks like it will be pretty close to normal yields," he said.

Corn continues to be Durham Region's largest cash crop, with about 60,000 acres under cultivation.

Although many farmers expressed concern about a lack of moisture earlier in the growing season, the agriculture representative said the "dry situation has been alleviated by the recent rainfall."

Bugs like earwigs have been a concern to many home gardeners, but they haven't posed any serious threat to area field crops.

There was a brief army worm alert earlier in the summer, but Mr. Bell said this never materialized.

1950's Dance Revival

Betz Pools Clipper Oldtimers are hosting their second annual 50's Rock N Roll Revival dance Saturday, September 7, at 8 p.m. Held at the old Stouffville arena, music by Nelson will be shaking up the rafters.

Tickets are \$5 and can be purchased from any member of the Clipper Oldtimer team. Tickets are also available at the door. However, because of last year's overwhelming response you better buy your tickets early!

For Further Information Call 294-5447

NOTE... There will be NO registration on Sept. 14th.

How a 2" plastic pipe can give you the energy to cut your heating costs in half.

If you're tired of paying the high cost of heating your home with oil, switch to a high efficiency clean-burning gas furnace. These state of the art furnaces are so technically advanced, they can actually cut your heating cost in half compared to conventional oil furnaces.

HOW

A high efficiency gas furnace uses a system of heat exchangers to catch the heat that a conventional oil furnace lets escape up your chimney.

This extra heat is then used to heat the house, and the remaining exhaust is vented via a 2 inch plastic pipe.

So there's almost no waste. In fact, a high efficiency condensing furnace operates above 90% efficiency, compared to 65% for conventional oil furnaces. This, coupled with the low cost of natural gas, is how you can save 50% and more on your oil heating costs.

EASY INSTALLATION

It's so easy to convert to a high efficiency gas furnace that, once your gas service is installed, you can be on oil at breakfast, on gas at dinner. Just think in one day you can break the expensive oil habit and be on your way to saving 50% and more on your heating costs.

WE CAN PROVE IT

We can show you in dollars and cents how much you could

save. Simply give us your approximate oil heating costs for the last full year, and we'll prepare a free computer analysis that tells you how much a high efficiency gas furnace can save you year by year, for the next 15 years. You'll see what you can save over oil and electricity, before you switch.**

SAVINGS THAT ARE GUARANTEED

We know we can save you money. So we guarantee it, in writing. Switch to a high efficiency gas furnace, or any other natural gas heating system, and if after one year of operation you haven't saved on energy costs, we'll replace your natural gas system with a new oil furnace, plus a new tank, at no cost!***

Call your authorized Gas Company dealer, or us, for the complete details.

Markham/Stouffville 887-5847

Consumers Gas

BASED ON OIL CONSUMPTION FROM 2275 TO 5475 LITRES AND ON AVERAGE COST FOR #2 FUEL OIL AT 38.3¢/L AND NATURAL GAS AT 23.2¢/m³ AS OF AUGUST 15, 1985. SAVINGS VARY FROM 50% TO 55%. SAVINGS SHOWN ARE BASED UPON CAPITAL, OPERATING AND MAINTENANCE COSTS. **ASSUMES EQUAL QUANTITIES OF HEAT DELIVERED TO THE HOUSE AND OPERATING EFFICIENCIES OF 90% HIGH EFFICIENCY GAS, 65% CONVENTIONAL GAS, 65% CONVENTIONAL OIL.
