THE ATARI 520ST SYSTEM

The Atari 520ST System represents a new concept in personal computing. Power, performance, and speed matched by the system's price and ease of use. With 512 K availability, this expandable personal computer, can handle all business type applications. Now available: Business, graphic, games, and multi-track MIDI sequencer programs.

MIDI is a standard interface designed to allow synthesizers and other electronic musical instruments to communicate with each other. The MIDI ports open up a world of musical applications. Imagine a computerized music instructor that lets you know when you hit a wrong note and then works with you at your own speed. Also, with the ST System you can create a sophisticated computerized recording studio. Musical tracks can be recorded, edited, and then played back when they're perfect.

INTRODUCTORY OFFER \$1500⁰⁰
Incl. 3 programmed diskettes

TO ALL MUSICIANS

From amps to guitars to strings to picks... There's a place for Peavey in your musical future. Whether you're just getting started in a musical career or you're a seasoned pro, you deserve the best. And that's just what Peavey provides. The best in innovative designs, quality and affordability. Don't just take our word for it, though. Come in and give us a try. You (and your music) deserve Peavey. The Musician's Edge.

SYSTEMS THAT DELIVER

Whether you're singing, shouting, stomping, hand-clapping or whispering, your message needs to come across clean and clear and yet, still be reproduced with all the energy you give it. With Peavey's total PA packages, you can rest assured that your message won't get lost somewhere between you and your listeners. Your delivery will be heard in a way that will absolutely capture your audience.
