

## Uxbridge mayor calls for 'team work'

Gerri Lynn O'Connor called for a "team work" approach to local government during her first official address as mayor of Uxbridge Township.

At Monday's inaugural meeting, she made reference to the high calibre of the municipality's regional representative and five newly-elected ward councillors.

Describing them as "a great team to work with," Mayor O'Connor said she's looking forward to meeting the challenges ahead in this three-year term.

And the mayor's confident that, in

time, the new group can become even better than the 1982-85 council. Mayor O'Connor was acclaimed to replace Bill Ballinger, who retired to devote more time to family and business interests.

In brief statements, regional councillor Don Jackson and the local councillors voiced bright hopes for the next three years.

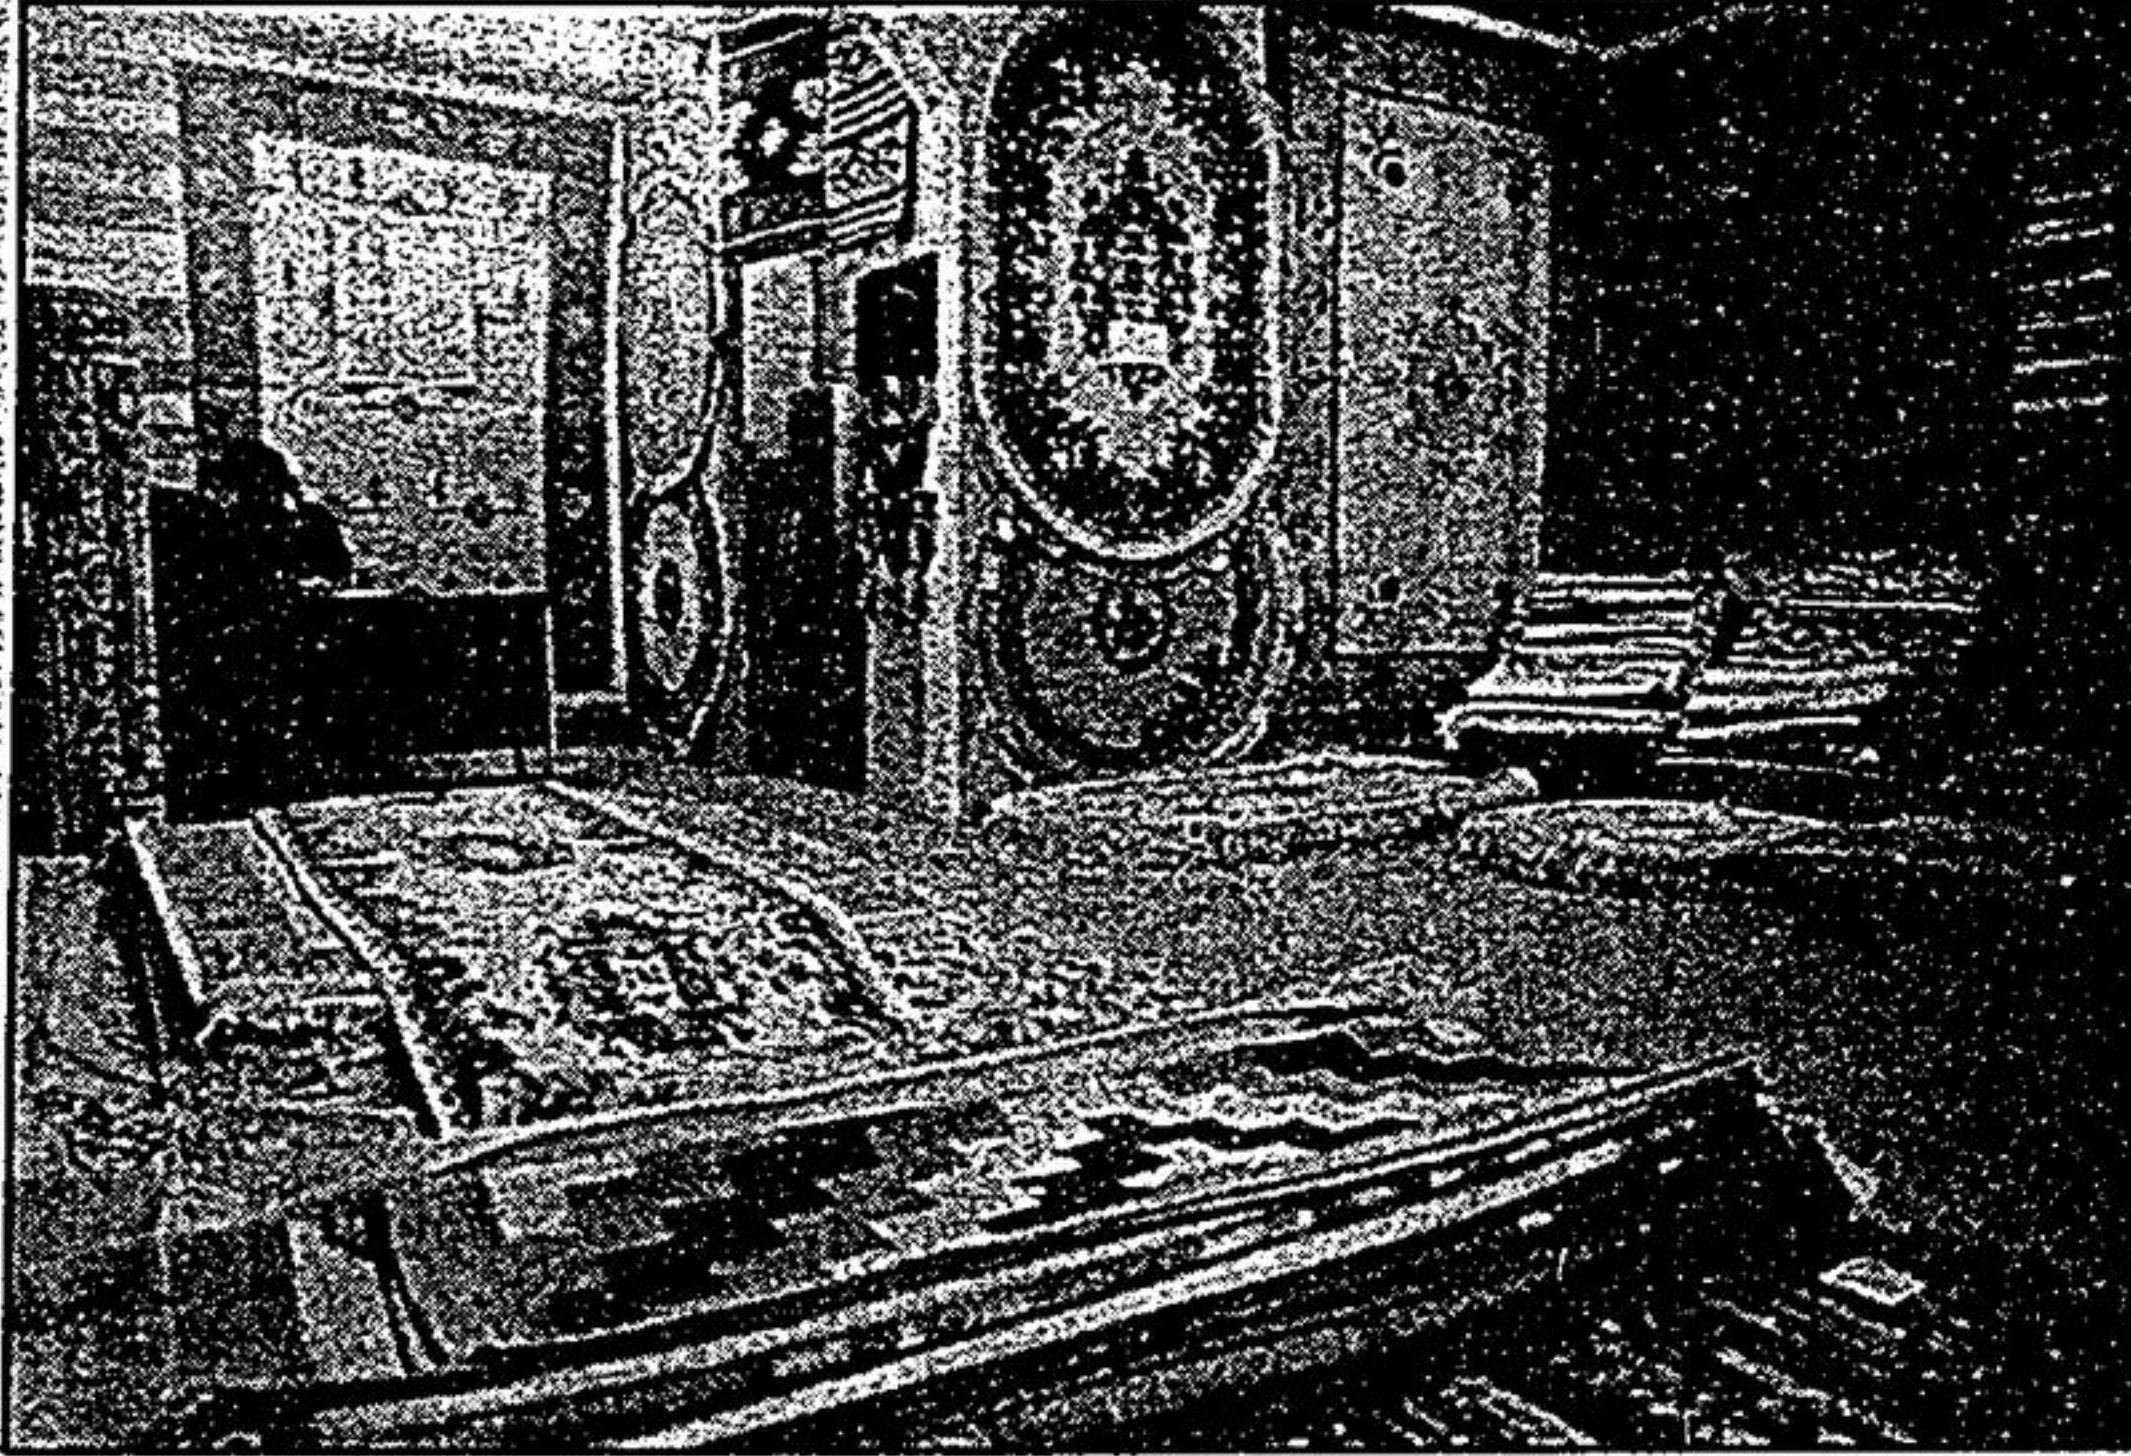

Clerk Walter Taylor presided over the swearing-in ceremony and Rev. Frank VanderZwan performed the invocation.

Regional councillor Jackson will also serve as the chairman of the

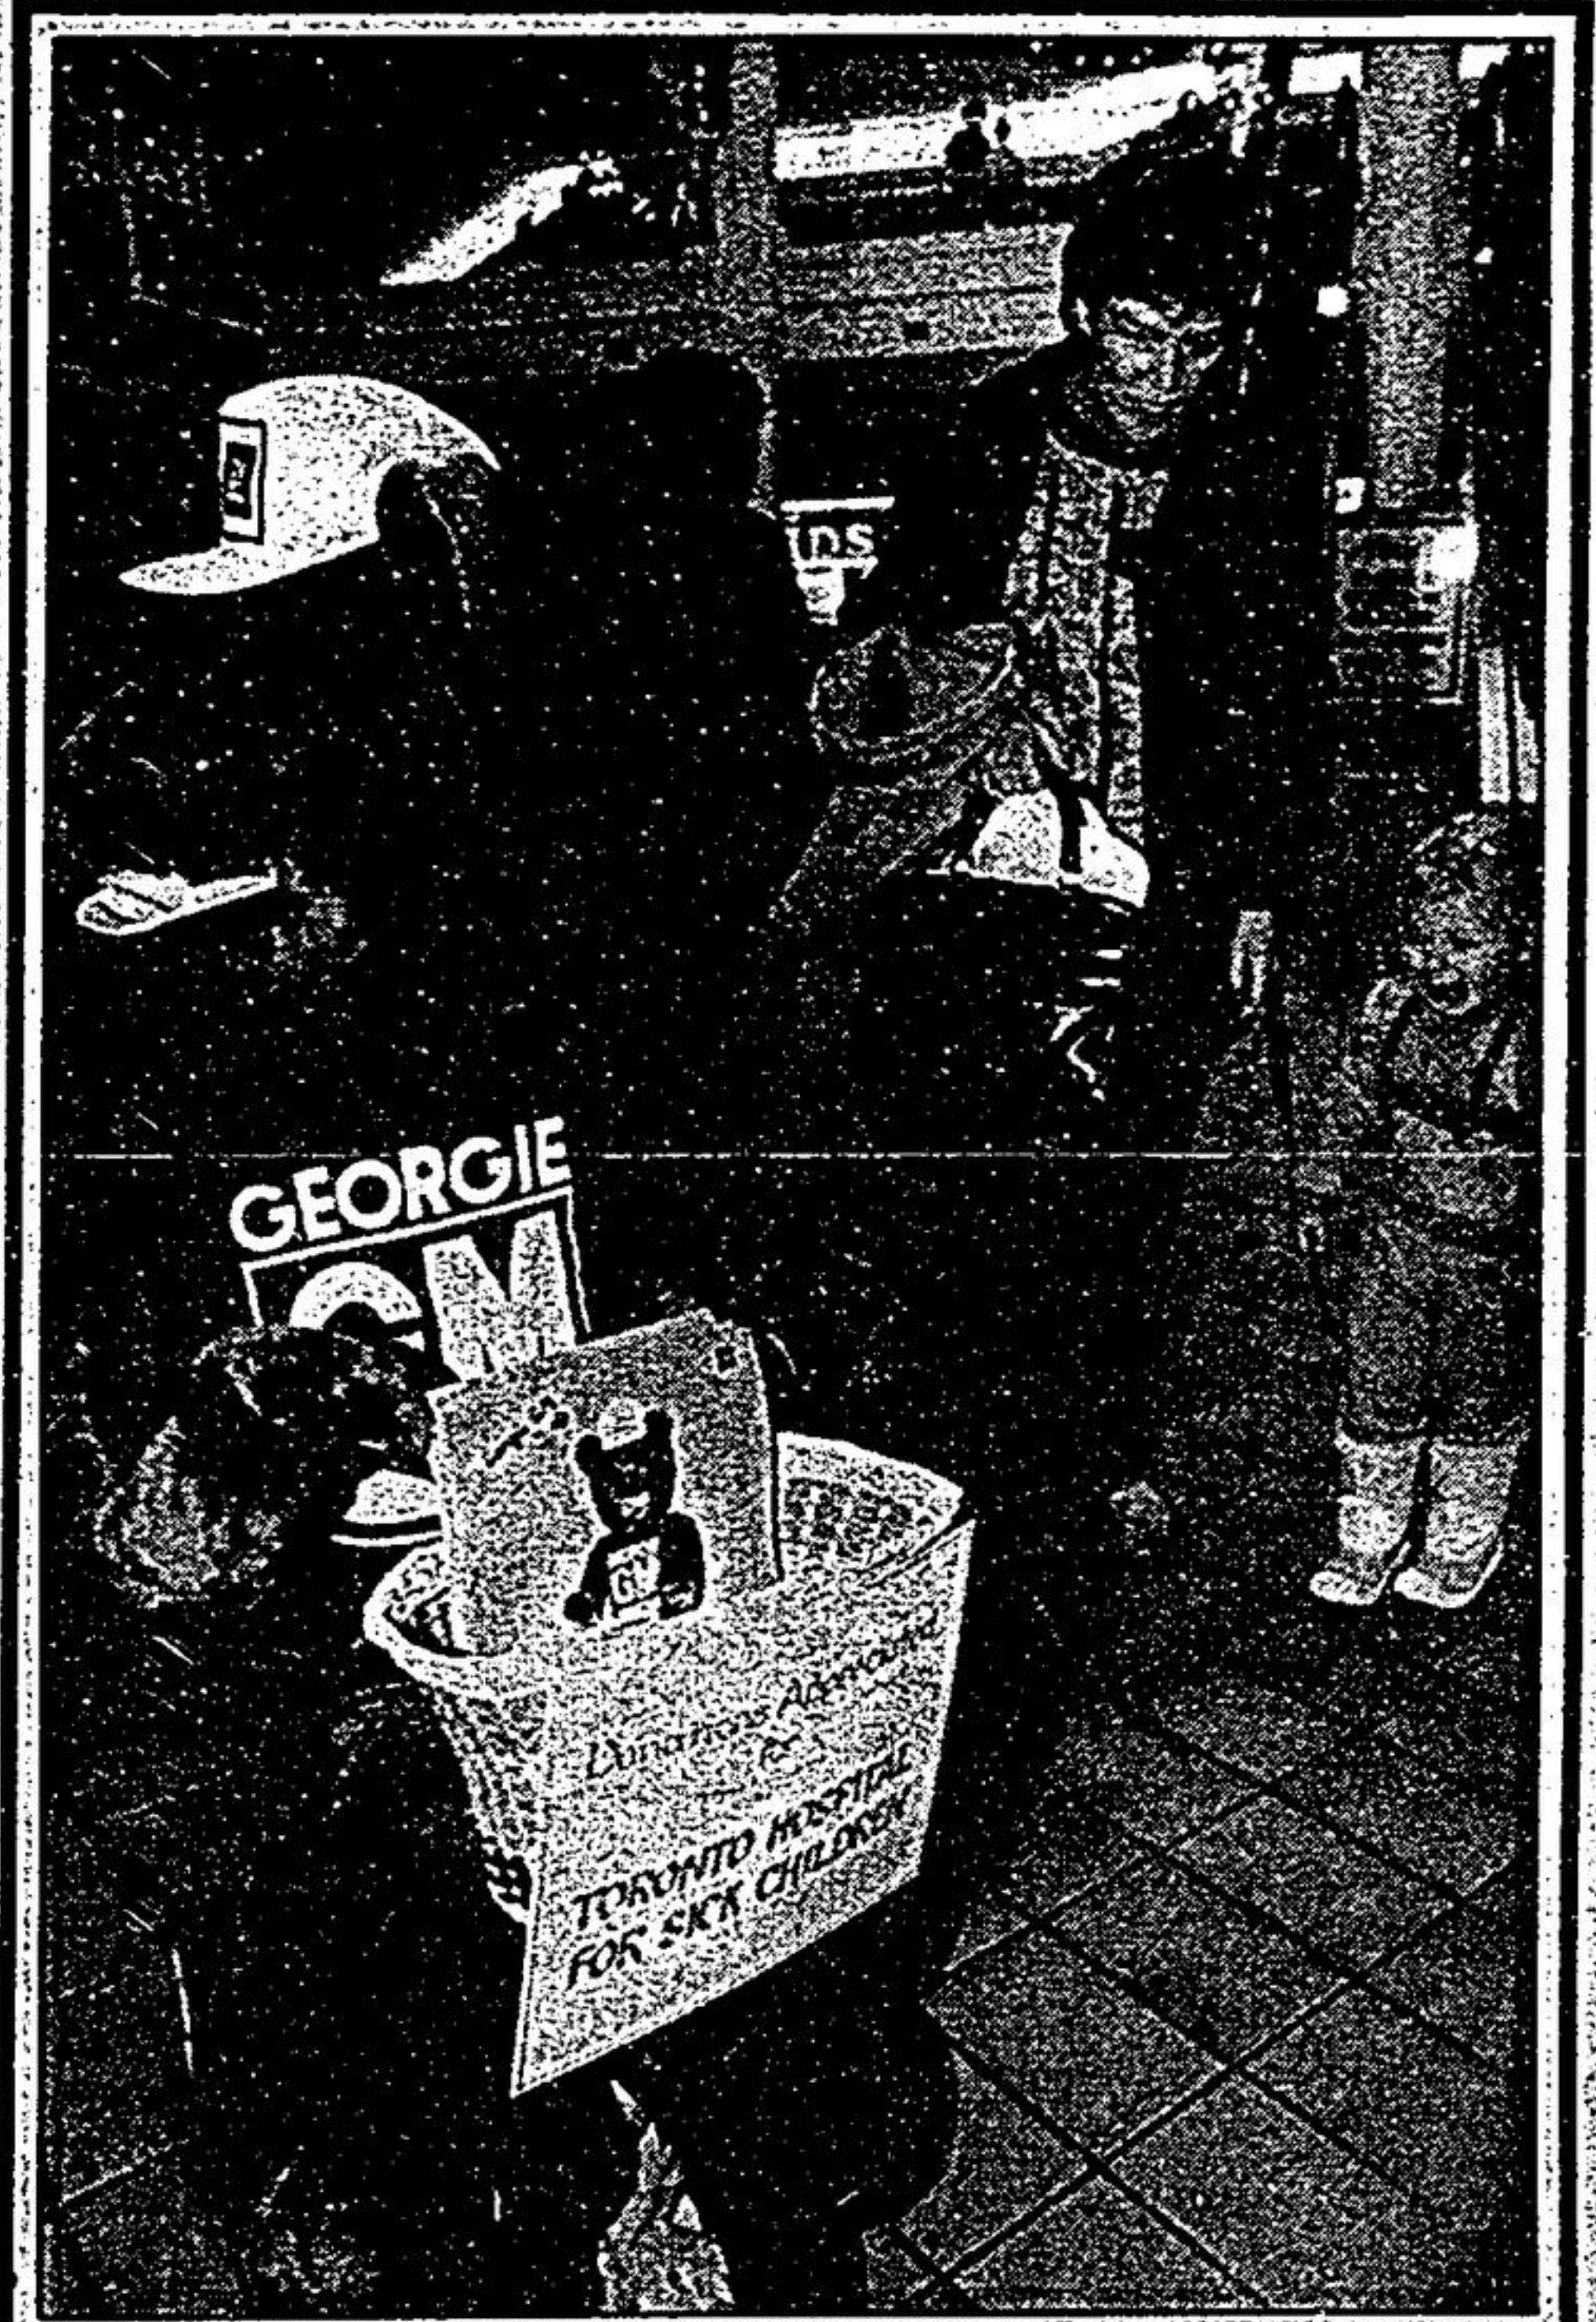

township's planning and development committee. Other chairmen are: Ward 1 councillor Cal Avery, public protection committee; Ward 2 councillor Francis Hockley, works and roads committee; Ward 3 councillor Harry Worsley, finance and property committee; Ward 4 councillor Barry Bushell, parks and recreation committee; and Ward 5 councillor Larry Austin, management committee.

Members named to the Uxbridge Hydro-Electric Commission are Bill Ballinger, Dean Wilson, David Dobson and Jim Campbell.

## CUSTOM INTERIORS HAS EXPANDED!

We now offer a wide selection of top quality, handknotted Oriental Rugs

## This bear's 'bearable'

GM Bear, better known as George Bear, made a grand tour of the Markville Shopping Centre last week collecting money for the Toronto Hospital for Sick Children. Kathryn Martin, 2, and mother Linda, of Unionville, found George to their liking.
