

NORTHERN LIGHTS PROUDLY PRESENTS THE ORIGINAL DR. MULLER'S "GIANT SUN.®" IT IS TRULY THE ONLY "GIANT" AMONG ALL EXISTING TANNING SPAS AND PUTS ALL OTHER TANNING EQUIPMENT "IN THE SHADE"

Northern Lights

Northern Lights will give you a beautiful tropical tan that has never before been possible in such a short time and for so little money. Just imagine, in only 20 minutes of pleasant, climate-controlled relaxation on our "Giant Sun" tanning bed, you will receive the equivalent of 4 hours of high-noon July sun – but without perspiring, burning or exposing yourself to the hazards of natural sun.

Tanning in natural sun is hot, uncomfortable, and potentially dangerous. Tanning with Northern Lights is cool, comfortable and safe.

Our original Dr. Müller tanning equipment is the latest and safest that technology can offer in the field of tanning; it was developed especially for us by Dr. Müller Company, West Germany, as a result of 60 years of experience in this field. No other company in the world can claim as much experience in the field of therapeutic tanning.

Original Dr. Müller tanning equipment is used around the world. Over 40 million people used it last year and this number is growing by leaps and bounds. The company's years of experience have culminated in the development of their latest "star" – the "Giant Sun" – exclusively available to Northern Lights in this area.

Only pre-selected Dr. Müller approved tanning salons of the highest calibre may offer these machines.

The "Giant Sun" was developed in answer to the public's request for maximum tanning in the shortest possible time, under the most comfortable and safest conditions, at an affordable price. Our Northern Lights studios offer all of these plus the most immaculate and luxurious surroundings, to be found in North America. Each tanning bed is in its own totally private and lockable, air-conditioned room and is equipped with stereo so that you can choose your favourite music to "dream" by as you tan.

Just remember, 4 hours of high-noon, July sun in just 20 minutes of cool, safe – and pampered relaxation for only \$10.00.

Early "Sun" birds – we will give you continental breakfast before you head out for the rest of your day.

Did you know that

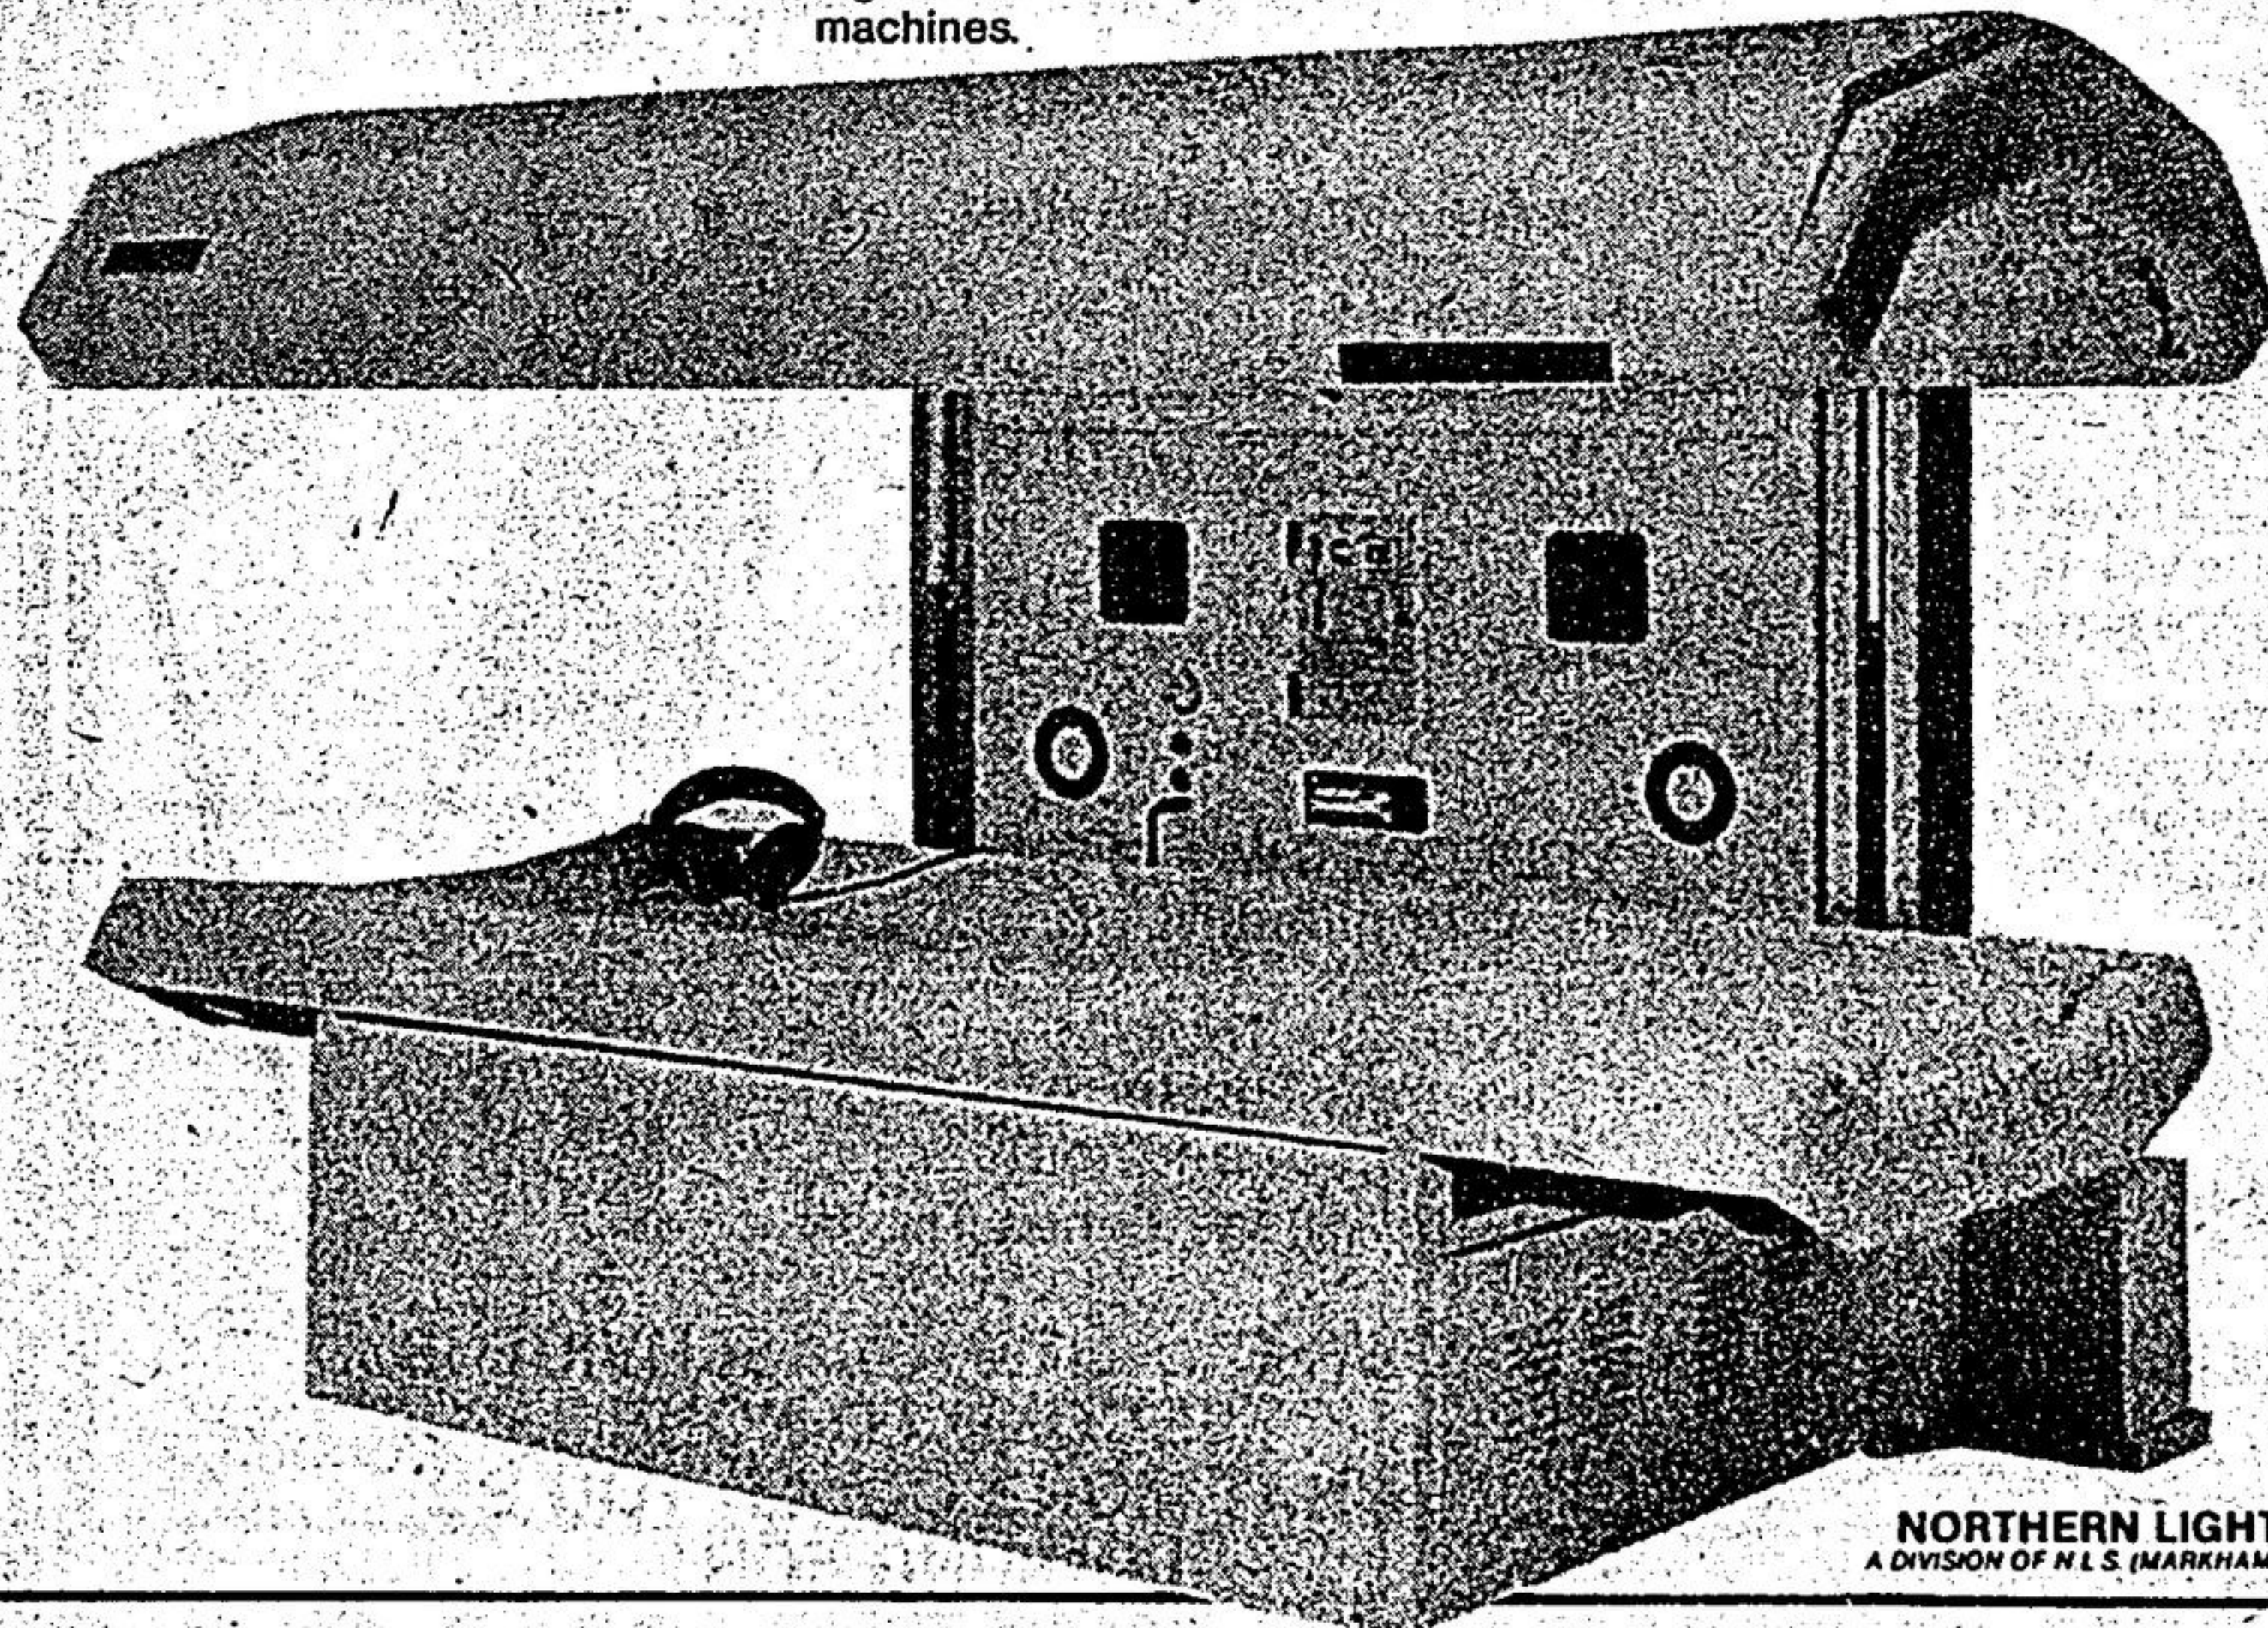

- Each tanning session will leave you relaxed and refreshed. You will not only look better but will feel better all over. You should achieve a full deep tan after just a few sessions ... exact number depends on your natural skin tone. Once you have achieved your desired tan, you should take 1 or 2 sessions weekly to maintain the luxury of a tan 365 days a year.

- Dr. Müller's equipment tanned over 40 million people last year – this number is growing rapidly – and no one has ever claimed that they have suffered any adverse effects from these machines.
- Dr. Müller is the world's leader in tanning equipment, and for your protection, we use only the "Giant Sun" which is the latest science has to offer in the tanning field and which is an exclusive to our studios.
- Our Dr. Müller is not only the safest but the most expensive equipment available – each unit costing far more than the average bed in Canada. Each bed has a built-in double intensive facial unit, a special ventilator system which provides a cool breeze while tanning, a built-in stereo tape deck, is completely automatic and electronically timed. In addition to improving looks, sun-tanning is vital to good health.

- It promotes mineral metabolism
- It produces vitamin D.
- It increases the body's resistance to infection.
- It improves respiration.
- It has a beneficial effect on some skin disorders.
- It improves the oxygen flow throughout the body.

Can you afford not to tan?

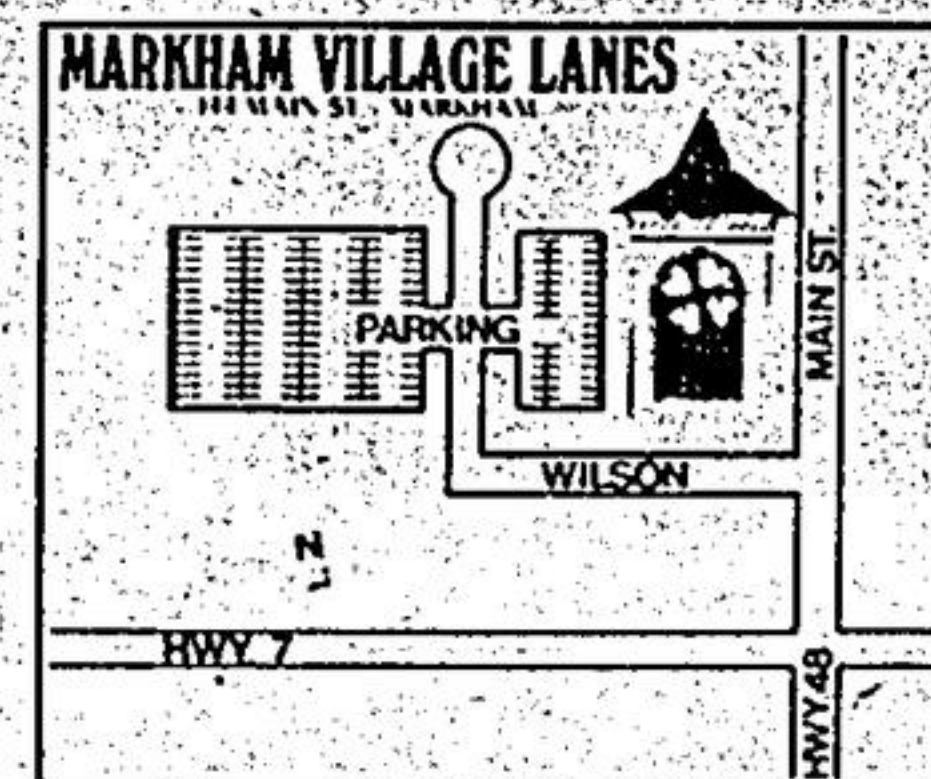

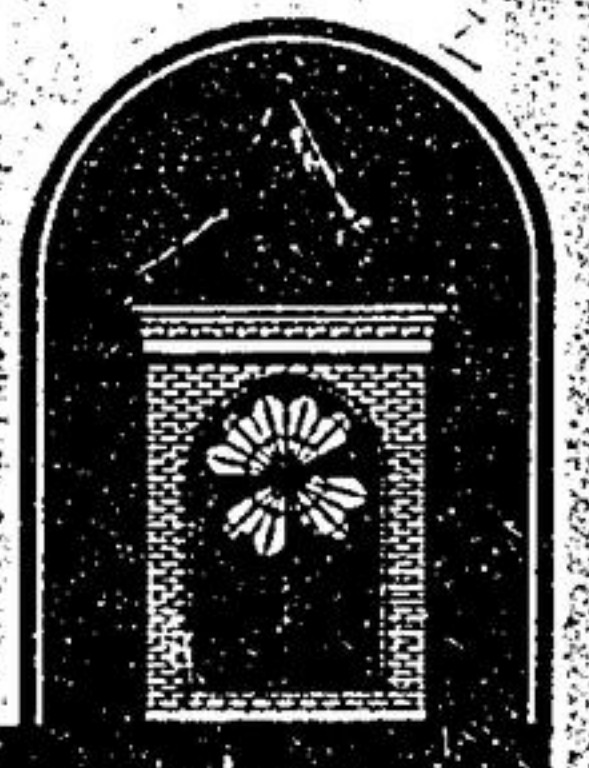

Please phone for an appointment for your "place in the sun" – 471-1760 – or just drop by to see us. We are open from 6:00 a.m. to 10 p.m. Parking is provided.
