**CURTAIN A WINDOW WITH PLANTS**

If the view from your window is dreary, cover it with a collection of small plants that thrive indoors. Apart from providing an exotic display of greenery, this arrangement allows apartment dwellers to cultivate flowers or herbs which would otherwise need a garden.

Erect a pair of adjustable shelf standards with brackets on the sides of your window frame. Choose glass shelves to allow as much light as possible to all layers. Make them adjustable to allow for plants of different heights & removable so they will be easy to clean.
