

FIX-IT-YOURSELF WITH HELP FROM HOME!

Home of the Handyman

IT'S NEW AND IT'S AT HOME HARDWARE

The GE remote control answering system lets you retrieve your messages from any phone wherever you are! Play back or leave messages and reset the unit by remote control. Dual cassette system allows you up to 30 seconds to record outgoing messages. Voice activated incoming messages can be unlimited in length or limited to 1 minute. Toll saver lets you check for any messages without making a connection to save you on long distance charges. Call screening speaker lets you monitor calls while they are being made. Message waiting LED indicator. And when you have received all your calls you even have quick erase to clear the incoming message tape, quickly! This remote answering system delivers the message wherever you are and it comes with a one year warranty. It's new and it's available at Home Hardware.

CURTAIN A WINDOW WITH PLANTS

If the view from your window is dreary, cover it with a collection of small plants that thrive indoors. Apart from providing an exotic display of greenery, this arrangement allows apartment dwellers to cultivate flowers or herbs which would otherwise need a garden.

Erect a pair of adjustable shelf standards with brackets on the sides of your window frame. Choose glass shelves to allow as much light as possible to all layers. Make them adjustable to allow for plants of different heights & removable so they will be easy to clean.
