**Oppose tyranny of Bill 94**

To The Editor:  
 I am but one of many area residents who support the doctors in their opposition to the tyranny of Bill 94.  
 The Liberal/N.D.P. coalition at Queen's Park is hell bent on destroying perhaps the finest health care available in the world.  
 Have they not seen the folly of totalitarian socialized medicine on their many tax-financed junkets abroad?  
 The purely "Pay As You Pray" system in the Excited States of America is clearly not desirable even to the average conservative-minded taxpayer, but the opposite is just as devastating to one's health as witnessed in Great Britain. People die unnecessarily while on lengthy wait lists for hospital beds. After gaining "control" of physicians, the government in the U.K. cut the rest of the health care system to the bone at the expense of lives. Are the left-wing losers of our government willing to demand the same of the citizens of Ontario?  
 We have enjoyed an equitable and healthy compromise to the above-listed extremes for many years and what do the Liberal

puppets of the N.D.P. insist on doing? Change it!  
 Peterson, Scott and yes, Sorbara, come off as a bunch of hypocrites when they attempt to justify Bill 94. Attorney-General Scott once counselled the doctors' group against such action. If equal access is the main argument, then the same can apply to the legal profession. The Canadian Constitution in essence, guarantees equal access to justice for everyone. Yet, only some can afford the services of Eddie Greenspan, J.J. Robinette and other legal "specialists". The rest get what they can pay for or accept an often inferior Legal Aid appointee.  
 What would Mr Sorbara say to a Bill proposing an Ontario Lawyer Insurance Plan where he would only be able to bill the government ten dollars for defending a parking ticket; twenty-five dollars for preparing a will, etc., etc?  
 "I think the story should go: "Politicians and lawyers in glass houses shouldn't throw stones."  
 Sincerely,  
 John H. Marks,
