Our new lawn tractors come with a small attachment you'll love. The price tag.

It's the icing on the cake. After being attracted by the smart styling, intrigued by the brand new features and impressed by all the dramatic improvements... you'll be delighted by the price.

This year, John Deere has introduced an entirely new line of 100 Series lawn tractors. All are priced substantially less than the 1985 models they replace. Not just a few dollars less, but hundreds! It's the most significant price reduction in John Deere history.

New overhead valve engines on most models provide increased horsepower and torque. Better efficiency and fuel economy too. And they're enclosed for quieter operation. You'll find more legroom. Easier refueling. And on our 130, a higher performance 30-inch mower deck.

See for yourself. John Deere's combination of high quality and performance, along with low price, gives you more tractor for a lot less money than ever before. Compare what others have to offer. You'll find there's never been a better time to own a John Deere.

Nothing Runs Like a Deere
