

Chicks intrigue kids

"Should we touch?" five-year-old David Williams of Altona asks Laura Cliff, 5, of Ballantrae Children attending the Mother Goose Nursery School, Tenth Line South, Stouffville, were intrigued when chicks began popping out of eggs in an incubator. This is one lesson (in life) they'll never forget. —Erkki Pohjolainen

Legion expresses thanks

Dear Editor:
I wish to thank everyone who helped make the annual Timmy Day, sponsored by Branch 459 of the Royal Canadian Legion, such a success.
We raised \$3,000.
I wish also to thank the merchants and members of the general public who generously donated draw prizes and contributed in other ways to the success of this annual event.

Sincerely,
Ivan Goudie,
Branch President

White Chiropractic Centre

The White Chiropractic Centre has been operating out of its present location for one year as of this week. It has been a busy year of growth, both physically and in services.
In September of 1985 we expanded the space in the clinic, as we were getting a little cramped. The new space allowed us to expand the services available to our patients.
We are pleased to have massage therapists working in the clinic. Their input to the health concepts in this office is greatly appreciated.
Fitness testing for individuals joining health clubs in the area is currently being performed by Dr. Paul White, D.C. Proper fitness testing combined with good advice regarding spinal care leads to greater rewards from exercise.
This clinic is the first in town to be using Laser Acupuncture Therapy. Laser is an exciting new form of therapy which has widespread benefits in the area of chronic pain management, athletic injury, and the more traditional areas of acupuncture.
This clinic will be contributing to the overall effort advanced by the Chiropractic profession from May 1st to May 7th during Spinal Health Week. Talks will be given at schools, health clubs and in the clinic. Places and times will be announced shortly.
All in all it has been a very good year in this location and we hope to bring many new facets of health care to your attention in the coming year.

Is child-bearing on payment plan?

Dear Mr Thomas:
From talking to several mothers, I know your newspaper will receive replies to the issue of day care in the public school system.
It's a topic that's close to many parents, mothers in particular. I'd like to give you my point of view.
We have a four-year-old son. We give him all the love and attention we can; in the evening but not dur-

ing the day. My husband and I both work.
We recently purchased a new home. If everything goes according to plan, we'll have it paid off by the time we reach sixty-five—retirement age.
If we had waited until we could afford our 'Johnny', we would have been deprived all the joy he's brought into our lives.
If day care was available in the public school system, he'd be en-

rolled. We need it and so does he for financial, emotional and peace-of-mind reasons.
I ask: Should child-rearing be based solely on ability to pay? If this is so, (as so many of my friends seem to believe), then we're fast becoming a dying race.
Sincerely,
Isabelle Ritchie,
Manitoba Street,
Stouffville
