

Students win science awards

By JANINE FALCON
Once again, congratulations are in order for several students at St. Robert Catholic High School.

St. Robert students did superbly, winning two of five Canada Wide awards at the recent York Regional and Canada Wide Science Fairs. The students won the Suncor Energy Award, first place in each of the three categories entered, a second and third, and two honorable mentions.

In the first category, Senior Life

Sciences, Joan Beck (Grade 13) took first place and a Canada Wide award for Caffeine: A Pesticide of the Future.

Second place was achieved by Tony DiNardo (Grade 11) for Using Simple Scientific Tools, and an honourable mention was awarded to Tim Fielding and Steve Rebello (Grade 12s) for their project, "Electrophoresis" (an exploration of the movement of electrically charged colloidal particles in a fluid under the influ-

ence of an electric field).

Christopher Cusso and John Susini (Grade 13s) walked off with first place and a Canada Wide award for "Exterior Ballistics" (the motion of projectiles after being fired) in the Senior Math and Physical Sciences category. Third place went to Debbie Chaves and Janet Cillis (Grade 13s) for a project on "Surface Tension".

In Senior Applied Science and Engineering, first place and the Suncor Energy Award went to Philip Boll and Ricardo Insecul (Grade 11s) for "Rotor Efficiency for Wind Generation". Jimmy Song and Edward Wong (Grade 13s) picked up second place for "Chloride Pollution" and honourable mention was awarded to Mike Colucci and Steve Treppo (Grade 11s) for "Aerodynamics".
