CLAREMONT

This contemporary pine and cedar home is nestled amidst 10 acres of deciduous forest. It is totally secluded and cannot be seen from any road or neighbors. It boasts huge principal rooms, pine posts and beams, skylights, 9 sliding glass walkouts, 5 bedrooms, 5 bathrooms, maids quarters and an inground 20'x40' pool. The main floor master bedroom has an ensuite dressing room and an ensuite bathroom featuring a twin shower/bathtub combination. The living room is sunken and each bedroom has a sliding glass walkout to individual cantilevered balconies. The interior staircase to the second level is cantilevered from the back of the massive fieldstone fireplace. The large eat-in country kitchen has antique pine barn board cupboards and a pine floor. There is a separate office/study with walkout off the kitchen. Included in the full basement is a roughed in squash/handball court. The home is fully equipped including central vacuum and automatic garage door opener. This home is truly a showpiece, however due to some rather obvious wear and tear in its present unoccupied condition, it is priced far below its replacement value. The asking price is \$365,000. It is well worth looking at and the vendors are very motivated to sell.
