DISCOVERY CLASSES: STUDENTS IN GRADE 4 TO 8  
Discovery classes are offered for children from grades 4 to 8 and provide an opportunity for motivated youngsters to have educational experiences beyond those normally available in regular school. The courses tend to stress creative, interpretive and exploratory activities rather than drill and memorization. Some of the courses are highly challenging in their academic level, while others are more broadly enriching. The instructors are selected for their expertise. Their appropriateness as role models, and their interest in working with young people.
