**Chilly Windows or
Patio Doors? . . .**

Chilly rooms are caused by glass and poorly insulated/old windows, patio doors and skylights. Window Quilts are the perfect, heat reflecting solution. The Quilt rolls down giving an air tight seal on all four sides of the frame. The space age insulated fabric reflects heat (in winter - back into the home; in summer - sun's heat out) reducing winter heat loss by 80%. Window Quilts have decorator appearance with many colours and fabrics to choose from. All installations are individually measured and installed.

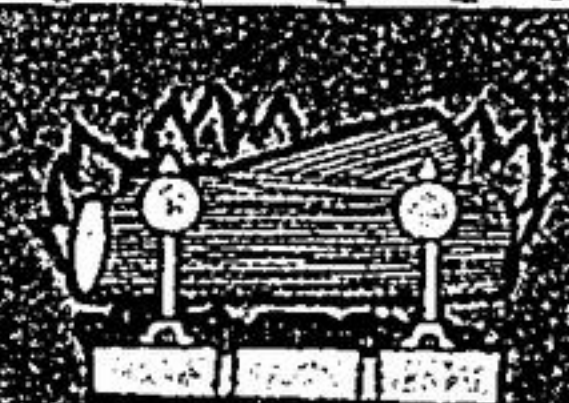

Costs no more than Installed Draps!
