Thanks for help, homebuyers say

Dear Sir:
Like many new homebuyers, my wife and I had our difficulties. With no way of knowing what avenues to take, the problems we experienced were major concerns to us.

Only after contacting Mr. Don Cousens, M.P.P. for the Markham riding, we were able to see the light in our fiasco.

Mr. Cousens instructed us on what procedures to take and whom to contact. His office wrote a letter to the Ontario New Home Warranty Program on our behalf asking for a quick response, and took the time to make a follow-up call to insure our concerns were being attended to.

If it were not for the concerns of Mr. Cousens and his office, we would still be experiencing difficulty with our builder.

Both my wife and I would like to

say "Thank you Mr. Cousens, you're one politician who really does care about your constituents."

Harold and Kathleen Hutchings Markham

Drop us a line

If you have a beef or want to pat someone on the back, sit down and write a letter to the Weekender.

Deadline is noon Thursday prior to publication. Names may be withheld on request at the discretion of the editor. Under no circumstances will anonymous letters be published. The address is 9 Heritage Rd., Markham, Ontario L3P 1M3.

Take a train glide

Dear Sir:
The reports which continue to reach us concerning train wrecks, and resultant injuries and deaths, are alarming, in my opinion. Some of us, who in our early

years enjoyed the scenic beauties of Canada while gliding by on our trains, feel that if additional money is needed to ensure safety, why not use some of the proceeds of Lottery games in Canada?

Perhaps train travel should be considered a form of recreation rather than a profit-making way to travel.

At last. A digital thermostat that's simple

Now, lower home energy costs up to 30% with the simplest-to-use digital thermostat ever.

It keeps you comfortable while it lowers energy costs. Automatically changes to the temperature you want at night while you sleep, and during the day when no one's home. Then returns the temperature to a comfortable level before you awake or return home.
