Things are picking up

Grade 5 students at Reesor Park Public School joined the Pitch-In campaign Wednesday and picked up litter and garbage around the Wootten Way school. Here, (from left) Jessica Warwick, Erica

Moyer, Tricia Curling and Maaja Kukla seem to be enjoying the work.

Spaceship with Martians lands 'right in my house'

Martians Invade Earth Once upon a time, a long time ago, back in the 1800s, a spaceship came down from space. It was odd looking. It landed right in my house. Everybody ran to the living room. We all looked in the spaceship's window. A weird-looking face peered back. It had two heads, one eye on each head, one nose, and two mouths on each head and punk rocker hair. It was wearing strange clothing. It had clawed hands and feet.

The creatures came out of the ship. They came towards me and put a lazer on me and I started to

go up in the air. It must be a gravity lazer, I thought. They wouldn't let me down!

All of a sudden it shut off and I fell into a haystack. I wasn't hurt, but I thought I was. Then I saw the two-headed Martian. I came up behind him and tried to punch one of his heads, but the other head turned around and caught my fist with his hand.

The other head turned, and the other Martian's started to chase me. I ran as fast as I could, but they were faster and they took me captive in their spaceship. It was big inside and there were all sorts of controls.

They handcuffed me so I couldn't touch anything. When they put me in a jail cell, they removed the cuffs. Soon, they went outside.

There was a window in the cell, with bars in front of it, so I peeked out. The Martians were starting to invade! Earth was doomed!

The Martians were snatching lollipops from little kids and pick-pocketing from adults. Then they returned to the spaceship and put all the treasure inside. I could hear police sirens.

I looked out the window and they were coming this way. I thought, oh good! The police started shooting at the spaceship, but it was invincible.

I looked outside the jail cell and there were the keys, on the floor. I grabbed them and opened the cell. I took their lazer guns and shot at them, then put a net over top of them.

Next, I opened the passage to the spaceship so the police could get in. Then they congratulated me. The aliens were sent back to their own plane.

The mayor gave me a medal for capturing the aliens. What a day for a hero!

My Hockey game

My Hockey Game Well, it started when I had a hockey game on Saturday at 11:45.

When I woke up, I turned on the T.V. I was watching the Gummi Bears. Then my father came downstairs.

I said, "Hi, come sit down."

My father said, "What?"

I said, "Can you make me some breakfast?"

My dad said, "Sure!"

I finished my breakfast. It was 11:00. I had to leave for hockey.

I put my hockey uniform on and went onto the ice.

My cousin, my friend and I were on first shift and of course, are defence men. I scored the first goal! Right off the face-off my cousin shot and he scored! The buzzer sounded and the next shift came on.

Time passed. We scored three more goals and we won. My cousin told me: "Great game!"

Spring
In the spring come pussy willows. Waking from their warm, soft pillows. Sun and showers. Help the flowers.

Birds wake up and flap their wings. Then they start to tweet and sing.

In Spring, the Easter bunny comes. Insects are busy and bees hum.

Come on people, Easter's here!
