Help for kidney patients

Kidney patients have special needs. To help meet those needs, The Toronto and District Chapter of the Kidney Foundation of Canada will hold an open afternoon panel discussion based on the social, emotional and information requirements of kidney patients and their families. This will be an excellent opportunity to help people affected by kidney disease realize that they do not need to feel isolated. To learn more about the services available and how to help, information will be provided on how patients can deal and help each other with the daily pressures and experiences of kidney failure. Among the panelists will be Ann Burlison, director of patient services for the Ontario Branch of the Kidney Foundation, a patient who is currently involved in a support group for fellow kidney patients and a volunteer from Can-surmount, a one-to-one patient visiting program of the cancer society. To confirm your attendance and for more information, please call the Kidney Foundation at 445-0373, contact Eugene Nanning, Public Relations Co-ordinator. Patients, relatives and medical persons are all invited.
