

BRIGHT SILVER CHRISTMAS BALLS and shiny tart shells make Christmas ornaments that will add sparkle to your tree. Fill the bottom of the tart shells with Elmer's Tacky Adhesive and place miniature Christmas balls inside to fill the shell. After drying, glue the backs of the shells to a green satin ribbon. Add a loop of heavy thread or yarn to the back of the ribbon for hanging, and a red holiday bow for a colorful touch.

Holidays bring out your best

Dressing during the holidays is more festive and opulent than at any other time of the year. This is the time for velvet and satin and long flowing silks, for the finest of jewelry, whether glittering rhinestones or classic pearls, and for dressing up in those few favorite dresses that we might have waited all year to wear.

Feel glamorous
There are countless ways to make yourself feel especially glamorous for all of the parties and get-togethers, this season.

You might try a new fragrance or a new hairstyle, or an eyeshadow with a bit of glitter for the evening, or even get a manicure for an especially important night.

Special accessories
A new pair of lacy hose or a dressy belt can add new flair to last year's outfit and, if you expect to have an especially busy holiday season or seem to always be getting last-minute invitations, you may want to plan one or two outfits ahead of time.

Have the right stockings, shoes and other accessories ready so that, at a moment's notice, you can be beautifully ready to enjoy the holiday spirit.

Personalized gifts do make the difference for holidays

The working woman receives dozens of gifts during the holidays. Employers and vendors, as well as family and friends, are anxious to extend their best wishes. So, it's not unusual for the same present to turn up more than once.

To be sure your gift is unique and memorable, minimize the chances of it being duplicated. Here are some ideas on how to present a holiday original:

- **Think personal** — Monograms and intimate special touches can personalize any gift classic. For instance, chocolate can be "custom made" in the shape of a house, pet or hobby.

- **Initializing** the standard pen and pencil set or daily diary can help make that gift seem more thoughtful and unique.

- **Think creative** — Christmas offers the opportunity to purchase special holiday gift packs not available at any other time of the year. For example, a favorite fragrance might be paired with a cleanser or lotion, and come in a reusable satchel.

- **Think practical** — When sending a gift directly to the office, it's generally a good idea to

make sure it's "commutable." This way, the receiver can decide whether to take it home or to keep it at her workplace.

A present like the Olay Christmas Gift Set — a lovely quilted cosmetic case chock-full of travel-sized skincare treats from Beauty Fluid to Beauty Cleanser — offers a woman many options. She can keep the case in her

desk for moisturizing and freshening up during the day, or enjoy its benefits at home. The kit is also ideal for travel.

The best way to shop for the working woman is to "think" like the working woman. Take advantage of all this season has to offer and you'll be sure to present a holiday hit.
