"There is more to being a successful Real Estate Broker than just winning awards year-after year". For almost 17 years it has meant patience, persistence, empathy, understanding, honesty and integrity. As well as being a real estate consultant, a confidant, a friend and a professional.

Whether the clients are buying their first home or transferred; whether the sellers are moving to a larger home, divorcing or retiring you must be dedicated and personally committed to real estate and be actively involved in your community to make it a better place to live for you being there.

MAGGIE ELLIOTT

E.T. Home Care has operated in Markham/Unionville for 3 years providing professional care for the home. Specialized services include:

- House and pet sitting
- House and contents videotaping
- Snow removal and
- Lawn mowing

The business was started when it became apparent that there was a need for a local service to provide complete care for homes and pets while people are away. We maintain a lived in appearance while the homes are vacant. Customers really appreciate the fact that we live in the area and that only the two of us enter the clients homes. Because of the demand for residential snow removal, we now provide that service on a seasonal basis.
