

Markham sales rep tops for Mary Kay

Mimi Borromeo of Markham was recently awarded her second Mercury Topaz GS in recognition of her leadership and sales achievements with Mary Kay Cosmetics Ltd.

Borromeo, an Independent Sales Director with the Mississauga-based company, will have the use of the car for as long as she meets the specified production requirements.

In an organization that awards minks, diamonds and exciting

trips to top achievers in its sales force, prestigious automobiles are undoubtedly the most sought-after prizes.

The company provides the opportunity to win the use of one of three of these automobiles — the white Mercury Topaz GS, the pink Buick Century and the pink Cadillac.

Mary Kay Cosmetics Ltd. is a wholly-owned subsidiary of Mary Kay Cosmetics, Inc. of Dallas, Texas.

Heritage preserved

Heritage Markham and the Town of Markham recently presented historic plaques to owners of a number of older buildings. The event took place at the Wilson House (formerly Lindner's) on Main St., Markham. Shown here (from left) are Mr. and Mrs. Gordon Madge owners of the John Lane House; Joanna French of the York Region Board of Education accepting the plaque for Buttonville schoolhouse; Markham Mayor Carole Bell; Mr.

and Mrs. Harvey Dale and Sadie Moranis owner of the David Barkey Rowhouses; Dr. and Mrs. Barry McLellan owners of the Crown Inn; Larry and Celeste Pelliccione owners of the Lutheran Parsonage; and Mr. and Mrs. Dario Zannier, owners of the George Robinson House. The event also featured an official ceremony renaming Lindner's as the Wilson House after Henry Wilson, the house's original owner.

Firm makes Wyse move to Markham

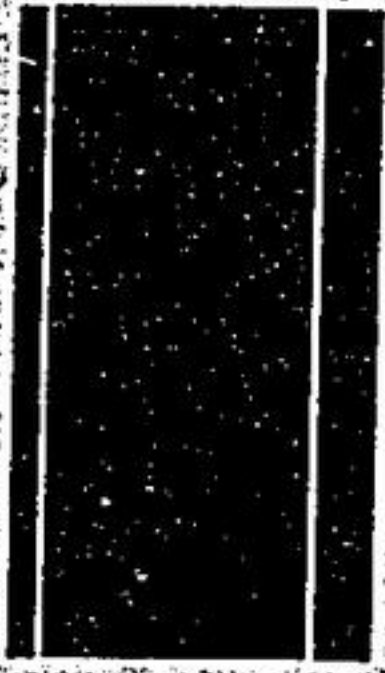

Wyse Technology (Canada) Ltd. has moved its sales office from Willowdale to larger facilities at One Valleywood Drive, Unit 3, Markham.

"The new premises give us 12,000 square feet of space," says Lou Brault, national sales manager for Wyse. "We're using about one quarter of it for offices. The balance is being used for our service depot and will accommodate our plans to increase staff."

Wyse Technology is an independent supplier of microprocessor-based products including terminals, IBM PC-compatible computers and monitors.

The company sells its products through customers that add

value, such as distributors, other resellers and original equipment manufacturers. Headquartered in San Jose, California, the company employs more than 2,000 people worldwide.
