

Skating champ a real gold-getter

BLAINE ANEKO
 Greg is the 14-year-old boy who won the gold medal in the 1988 Ontario Championships in Orangeville. He is the youngest skater to ever win the title. Greg is a real gold-getter. He has won the gold medal in the 1987 Ontario Championships, the 1988 Ontario Championships, and the 1988 Canadian Championships. He is also the 1988 Ontario Skating Champion. looking for perfection. Greg is as well, says coach Michael Sanderson. According to coach Sanderson, the desire for perfection has an ambivalent effect on the young skater. On one hand it motivates him, but on the other it hinders him. Greg is an absolute perfectionist, says coach Sanderson. When he has troubles he gets down on himself. But he skated an outstanding performance in Orangeville. Mr. Sanderson, Greg's coach for the past two years, says he has witnessed a dramatic transformation in Greg's attitude and commitment towards skating. According to the coach, where other skaters take the conventional route, Greg is willing to take chances artistically. And although coach Sanderson is obviously proud of his pupil, he won't be caught carrying his skate bag. His (Greg's) compulsory figures need a lot of work, he says. So does his overall confidence. Every skater has the potential and there are a lot of good skaters, but only one Canadian champion. It should be Greg's goal to be a good overall skater.

It will be two more years when Greg is in the novice category before he'll be able to compete in a Canadian competition but for now he'll have to content himself with perfecting the difficult double cherry flip manoeuvre and that suits his mother Mary just fine. Greg enjoys skating says Mary. He has good coaches that understand his needs. We never pushed him. He'll continue as long as he enjoys it.
