## Top prize winner happy and sad over graduation

By CHRIS GARBUTT  
For 13-year-old Natalie Wood, it was a happy and sad occasion. Although the Stouffer St. South resident was honored many times at Summitview's Grade 8 graduation Thursday, it was also a time to say goodbye to many of her friends.

Most of the Summitview grads will attend Stouffville District Secondary School next year, but Natalie will be going to Unionville High School in the drama and dance programs.

Natalie was the winner of the newly-created Lorne Boadway Award Thursday for her talent in the arts, her humanitarian qualities and her positive contribution to the atmosphere of the school.

She also received the top award in geography and a school letter. Her involvement in the school included science fair, school band, French club and library.

Guest speaker at the ceremony was former principal Lorne Boadway. Melissa Hammond was the valedictorian.

Andrea Boyd won the award for academic excellence as well as the award for top marks in history. Lori Upton was the most improved student and Leslie Penny received the award for school leadership.
