Shouldn't give in to smokers

Dear Editor:
Administering a high school of 800 young people is a tremendous responsibility. Some of us have problems controlling two or three.

With respect to the no-smoking problem off campus, I'd like to suggest the principal of SDS assert his authority and forbid this practise. Under threat of suspension, I'm sure the students would comply. If not, they could be charged by police with loitering because that's exactly what they're doing.

I do not believe a smoking area should be re-established on school property. If this was approved at Stouffville High, it would have to follow across the Region. This, in my opinion, would be a backward step.

I have sufficient faith in our youth to believe they will respect 'an order' from their principal whether it's on the school grounds or off.

Sincerely,
(Mrs.) Rhoda Gibson
Geoffrey Crescent
Stouffville.

Married fifty years

It was a memorable afternoon for Mr. and Mrs. Joe McMullen Saturday. An 'Open House' was held at Stouffville's Silver Jubilee Club on the occasion of their 50th wedding anniversary. Mr. and Mrs. McMullen were married by Rev. Morton Oct. 29, 1938. They farmed on Conc. 10, Markham, then resided in Uxbridge 24 years before moving back to Stouffville in July. They now live at 85 Winlane Drive.

—Jim Thomas

"NDP not Communist"

Dear Editor:
Question: What is the difference between a Socialist and a Communist?

To me, there's a world of difference.

So often, at election time, one hears the remark: "I wouldn't vote for the NDP; they're Communist!" Or "I like Ed Broadbent, but I wouldn't vote for him. He's Communist!"

People who utter such nonsense are uninformed politically and are ignorant of the difference between Socialist philosophy and Communism as it's practised today.

Social reforms, that have been adopted by most of the industrialized nations over the last 75 years, have been the result of continuous pressure from outside and within Parliaments from those groups and individuals who wished for a better life for the underprivileged, the end result being the formation of Socialist parties within the democratic parliamentary systems of the western world.

At election time, in many cases, other parties have adopted the ideas of Left Wing Parties and made them planks in their own platforms, claiming them to be results of their own "think tanks".

If it hadn't been for Socialist thinking, I doubt many of the benefits we enjoy in the Social field would be in force today.

People who link Socialism with Communism, obviously haven't lived in a Communist country.

Just as dangerous as Communist thought is the thinking of such radical right wing people as Senator McCarthy was in the United States many years ago where he and his like saw a "Commie" under every bed of "suspected" people. Many had their careers shattered by being wrongfully accused of thinking differently to him and his cohorts.

Even today, in President Reagan's administration, there are people who believe that those who don't think like him must be Communist.

Socialist philosophy is probably the most 'caring' of all modern political thought for the well-being and improvement of the lot of the less fortunate in our society. However, in trying to implement their philosophy through parliamentary means, it often becomes bogged down with an overload of bureaucracy and a large unproductive civil service that tends to stifle its own well meaning philosophy.

Communism, in its present form, is the very antithesis of Socialism.

Sincerely,
Adam Johnstone
R.R. 1, Stouffville
